## Foreword

This publication provides the monthly Consumer Price Indices for Uganda (Composite) and for the ten baskets of Kampala High Income, Kampala Middle Income, Kampala Low Income, Jinja, Mbale, Masaka, Mbarara, Fortportal, Gulu and Arua. All the baskets are for the urban households.

The current Consumer Price Index was rebased from 2005/2006 using weights derived from the Uganda National Household Survey (UNHS IV), that was conducted from May 2009 to April 2010. During the rebasing exercise, Kampala was further decomposed into three baskets from the two that has been existing. In addition, Fortportal Centre was incorporated into the Index. The rebased CPI is now classified using international standards, referred to as Classification of Individual Consumption According to Purpose (COICOP). This is a shift from the Central Product Classification (CPC) that was used in the earlier series.

At the elementary aggregate (EA) level, the indices are computed using the Jevons (Geometric Mean) method for all items within the elementary aggregates. The modified Laspeyres index formula is used to compute higher level indices. The National CPI is computed as a weighted average of the ten baskets mentioned above and indices are available from the EA level.

Ben Paul Mungyereza  
**EXECUTIVE DIRECTOR**

# Highlights of CPI, May 2016

## 1.1 Annual Inflation

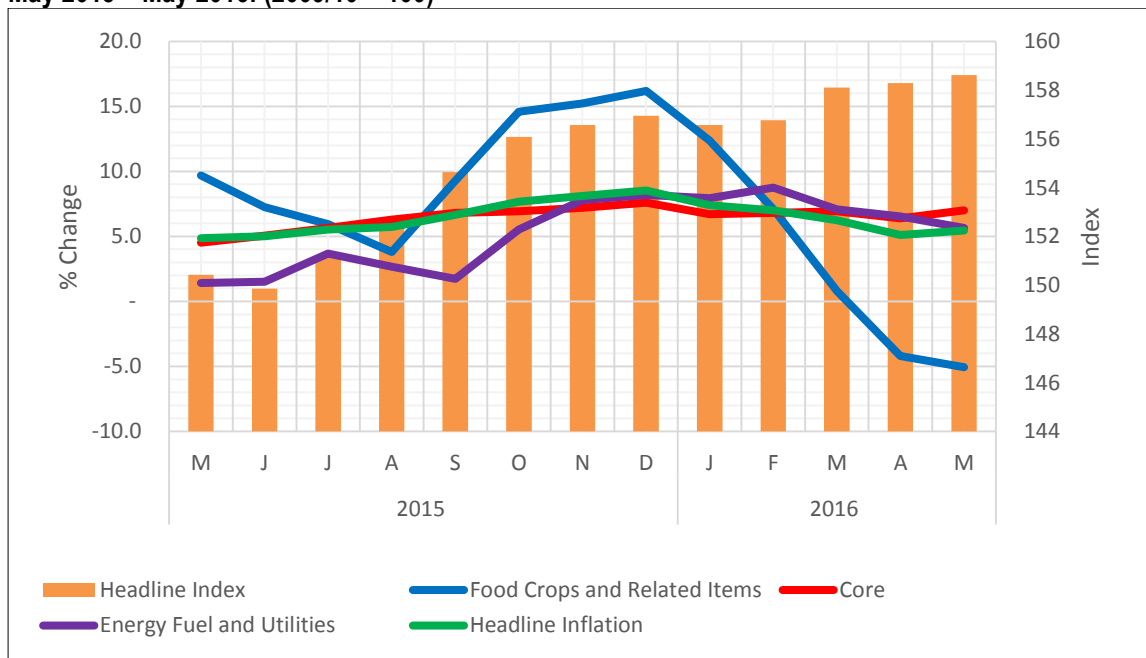

The Annual Headline Inflation for the year ending May 2016 increased to 5.4 per cent compared to the 5.1 per cent recorded during the year ended April 2016.

The driver for the Annual Headline Inflation was the Annual Core Inflation which registered 7.0 per cent for the year ending May 2016, compared to the 6.4 per cent recorded during the year ended April 2016. The increase in Annual Core Inflation is due to a rise in other goods Inflation of 7.4 per cent for the year ending May 2016 compared to the 6.7 per cent increase recorded during the year ended April 2016. In addition, Annual Services Inflation increased to 6.5 per cent for the year ending May 2016, compared to 5.9 per cent increase that was recorded during the year ended April 2016.

On the other hand, Annual Energy, Fuel and Utilities (EFU) Inflation decreased to 5.6 per cent for the year ending May 2016, compared to the 6.5 per cent recorded during the year ended April 2016. Similarly, the Annual Food Crops and Related Items Inflation decelerated to 5.0 per cent for the year ending May 2016, compared to an earlier deceleration of 4.2 percent recorded during the year ended April 2016. The deceleration in Annual Food Crops Inflation was due to the decline in the annual Vegetables Inflation to minus 8.1 per cent for the year ending May 2016 compared to the minus 6.1 per cent recorded during the year ended April 2016.

Graph 1 shows All Items Index and trends in Headline, core, EFU and Food Crops inflation.

Uganda Bureau of Statistics

## 1.2 Food and Non-Food Inflation

The Annual Food Inflation decreased to 2.1 per cent for the year ending May 2016 compared to 3.5 per cent recorded during the year ended April 2016. On the other hand, the Annual Non-Food Inflation increased to 6.8 per cent for the year ending May 2016, compared to the 5.8 per cent recorded during the year ended April 2016 (Fig. 2). Key Drivers for the increase in Non-Food inflation were Clothing and Footwear (at 10.7 per cent), as well as Miscellaneous Goods and Services (at 11.6 per cent).

## 1.3 Annual Headline Inflation by Income Groups and Geographical Areas

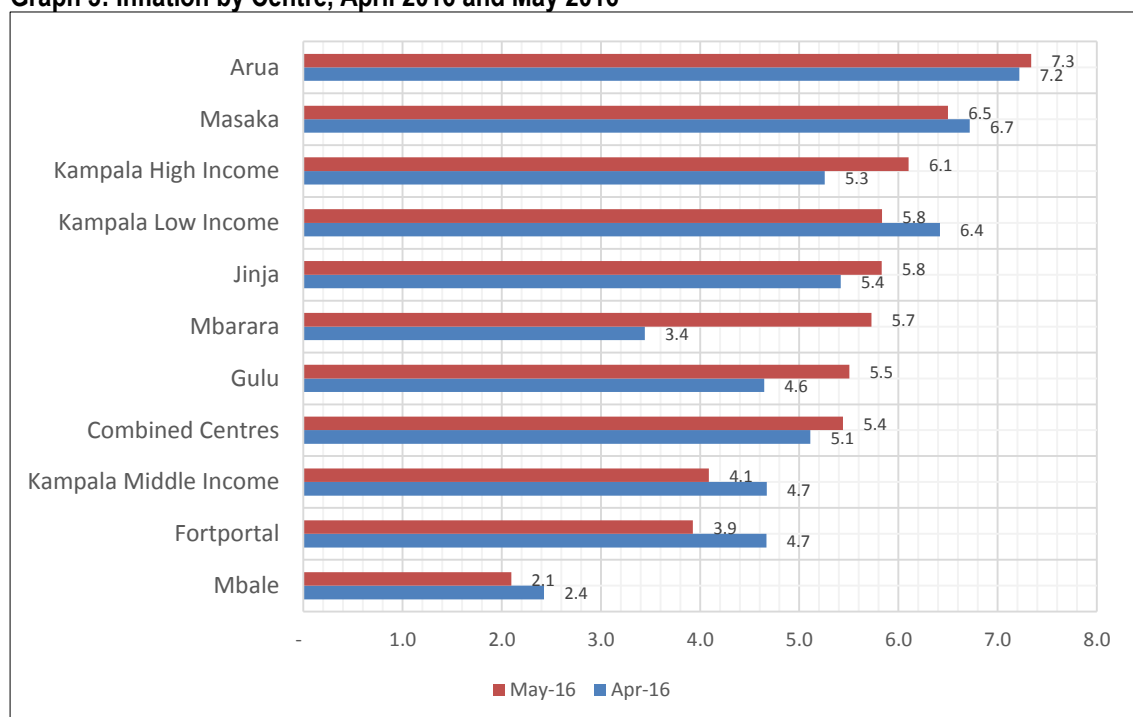

Arua registered the highest Annual Inflation of 7.3 per cent for the year ending May 2016, compared to 7.2 per cent recorded for the year ended April 2016. High Annual Inflation for Clothing and Footwear, at 10.3 per cent for the year ending May 2016, was the main driver for Arua. In addition, the Annual Inflation for Restaurants and Hotels rose to 14.6 per cent for the year ending May 2016 compared to 13.9 per cent registered for the year ended April 2016.

The second highest inflation registered was Masaka, at 6.5 per cent for the year ending May 2016, though lower than 6.7 per cent recorded in April 2016. In particular, high Annual Inflation for Furnishings, Household Equipment and Routine Household Maintenance that registered 11.3 percent in May 2016 compared to 9.3 per cent for April 2016 was the main driver of the Centre inflation. In addition, Miscellaneous Goods and Services recorded an annual inflation of 4.6 per cent for the year ending May 2016 compared to 3.1 per cent for the year ended April 2016.

Kampala High Income registered the third highest inflation of 6.1 per cent for the year ending May 2016, up from 5.3 per cent registered for the year ended April 2016. This was driven by Clothing and Footwear at 14.4 per cent, for the year ending May 2016, compared to 8.8 per cent recorded for the year ended April 2016. The other driver was Miscellaneous Goods and Services that registered an 18.1 per cent for the year ending May 2016 compared to 9.0 per cent recorded during the year ended April 2016.

The graph 3 shows Headline inflation for all CPI centres for the months of April 2016 and May 2016.

## 2.1 Monthly Inflation

The Monthly Headline Inflation rose by 0.2 per cent for the month of May 2016, up from the 0.1 per cent recorded in April 2016. This rise is mainly attributed to the Core Inflation that registered a 0.5 per cent rise in May 2016 from the earlier 0.0 per cent recorded in April 2016. Food Crops inflation decelerated to 1.5 per cent in May 2016 from the 2.4 per cent increase recorded in April 2016. Drivers of Food crops Inflation were, Fruits and Vegetables Inflation that registered a minus 2.3 percent and a minus 0.3 percent in May 2016 respectively. Similarly, the monthly EFU Inflation for May 2016 dropped further by 0.7 per cent from the 1.6 per cent drop observed in April 2016. This is mainly attributed to a decrease in fuel prices during the month. In particular, Petrol prices decreased by 3.3 percent in May 2016 from an earlier drop of 6.2 percent that was recorded in April 2016, Kerosene prices decreased by 1.5 percent in May 2016 compared to a decrease of 1.4 in April 2016 and Liquefied propane gas prices for the month of May 2016 decreased by 0.6 percent from the 0.4 per cent decrease recorded for the month of April 2016.
