

**CONSUMER PRICE INDEX - FEBRUARY 2016**

**PRESS RELEASE**

**1.1 ANNUAL INFLATION**

The Annual Headline Inflation for the year ending February 2016 stabilised at 7.7 per cent, the same rate (revised) that was recorded for the year ended January 2016.

The drivers for the Annual Headline Inflation were the Annual Core Inflation which increased to 7.6 per cent for the year ending February 2016, compared to the 7.1 per cent recorded for the year ended January 2016. The increase in the Annual Core Inflation was largely due to the rise in the annual services inflation to 6.9 per cent for the year ending February 2016 compared to the 5.8 per cent recorded for the year ended January, 2016. The other driver was the Annual Energy, Fuel and Utilities (EFU) Inflation that rose to 8.7 per cent for the year ending February 2016, compared to the 7.8 per cent recorded in January 2016. This was mainly due to increased water charges registered in the month of February 2016 compared to those that were registered during the month of February 2015, which is a base effect.

The rise in Annual Core and EFU Inflation was, however, offset by a decline in the Annual Food Crops Inflation that slowed to 7.3 per cent for the year ending February 2016 compared to the 12.4 per cent registered during the year ended January 2016. The decrease in Food crops inflation is attributed to a decline in annual Vegetables inflation that dropped to 7.4 per cent for the year ending February 2016, compared to 16.4 per cent that was recorded for January 2016.

Graph 1 below shows All Items Index and trends in Headline, core, EFU and Food Crops inflation.

## 1.2 FOOD AND NON-FOOD INFLATION

The Annual Food Inflation decreased to 10.1 per cent for the year ending February 2016 compared to 12.8 per cent recorded for the year ended January 2016. On the other hand, the Annual Non- Food Inflation increased to 6.7 per cent for the year ending February 2016, compared to the 5.8 per cent recorded for the year ended January 2016 (Fig. 2). Key Drivers for higher Non Food inflation were Transport (10.7 per cent), Clothing and Footwear (13.1 percent) and Miscellaneous Goods and Services (6.3 per cent).

## 1.3 ANNUAL HEADLINE INFLATION BY CENTRE

Masaka registered the highest Annual Inflation of 12.3 per cent compared to the 11.9 per cent recorded for the year ended January 2016. High annual inflation for Food and Non-Alcoholic Beverages, at 22.5 per cent for the year ending February 2016 compared to 22.9 per cent recorded in January 2016, was the main driver for Masaka. In addition, the Annual Inflation for Clothing and Footwear rose to 13.7 per cent for the year ending February 2016 compared to 10.0 per cent registered for the year ended January 2016.

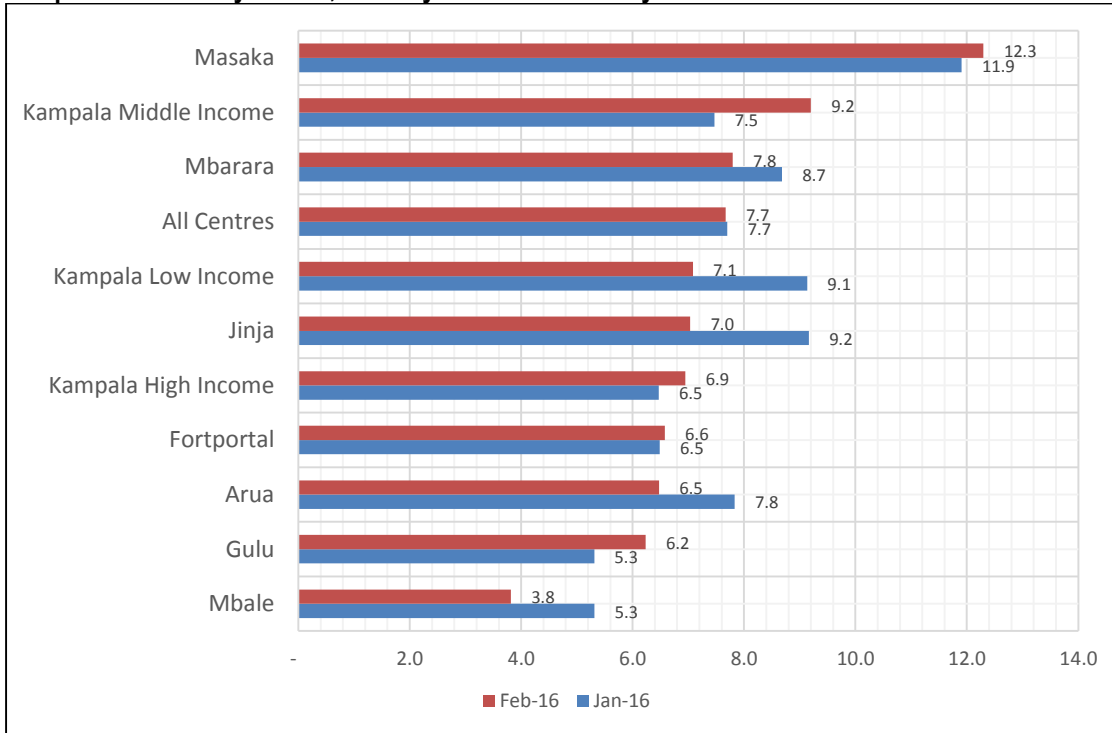

The second highest inflation was registered for the Kampala Middle Income, at 9.2 per cent for the year ending February 2016 compared to 7.5 per cent recorded in January 2016. In particular, an increase in the Annual Inflation for Transport to 43.1 per cent for the year ending February 2016 compared to 12.5 per cent for the year ended January 2016 was the main driver in Kampala Middle Income. In addition, the Annual Inflation for Clothing and Foot wear rose to 12.1 per cent in February 2016 compared to 11.9 registered for the year ended January 2016.

Mbarara registered the third highest inflation of 7.8 per cent for the year ending February 2016, down from 8.7 per cent registered for the year ended January 2016. This was driven by Annual Inflation for Furnishings, Household Equipment and Routine Household Maintenance, at 9.7 per cent, for the year ending February 2016 compared

to 4.3 per cent recorded for the year ended January 2016. The other driver was Housing, Water, Electricity, Gas and Other Fuels that increased to 11.0 per cent for the year ending February 2016 compared to 9.4 per cent for the year ended January 2016.

The graph 3 below shows Headline inflation for all CPI centres for the months of January 2016 and February 2016.

**Graph 3: Inflation by Centre, January 2016 and February 2016**

## 2.1 MONTHLY INFLATION

The Monthly Headline Inflation for February 2016 rose by 0.5 per cent from 0.1 per cent recorded in January 2016. In particular, the monthly Core Inflation for February 2016 increased by 0.6 per cent from the 0.9 per cent registered in January 2016. This is due to an increase in services inflation that registered 1.3 per cent increase in February 2016 from 1.1 per cent registered for January 2016. However, Other Goods inflation declined to 0.1 per cent in February 2016 from 0.7 per cent increase recorded in January 2016. The monthly EFU Inflation for February 2016 increased to 0.6 per cent from the 1.0 per cent drop observed in January 2016. This is mainly attributed to the Charcoal inflation that increased by 4.0 per cent in February 2016 from the earlier 1.7 per cent drop recorded in January 2016. Food Inflation, however, continued to register a deceleration of 0.4 per cent from the earlier decline of 1.1 per cent in January 2016. This is mainly attributed to the Food crops Inflation that declined further by 0.3 per cent in February 2016 from the earlier 4.8 per cent drop recorded in January 2016.
