

2021 NATIONAL SERVICE DELIVERY SURVEY (NSDS) HEALTH SERVICE

**Dissemination Workshop
Held at UBOS Headquarters,
Kampala District
4th October 2022**

Introduction

The aspiration of Agenda 2030 (SDG 3) and Goal 3 of Agenda 2063 call for ensuring healthy lives and promoting the well-being at all ages to which Uganda is assents to.

Uganda aspires to see her citizens enjoying a high quality standard of living by improving the health status as highlighted in the Uganda Vision 2040.

The NDPIII (2020/21 –2024/25) guides the nation in delivering the aspirations articulated in Uganda Vision 2040.

Introduction

- The mission of Uganda's health sector is **“to provide high quality and accessible health services to all people in Uganda, including addressing broader determinants of health to attain socio-economic development and prosperous life”**.
- The NSDS 2021 sought to measure achievements made by the health sector in striving to achieve its mission.

Introduction

This Presentation summaries key findings on the;

- Health status of household members in the 30 days preceding the survey,
- household access to and utilization of health services and household members' perceptions on the adequacy of health services.
- Information from the health care service providers that served the communities.

Incidence of Sickness
