CONSTRUCTION INPUT PRICE INDICES AND CONSTRUCTION SECTOR INFLATION

DECEMBER 2025

1.0 Annual Construction Sector Inflation

Construction Sector Inflation as measured by the Construction Input Price Index for Uganda for the 12 months to December 2025 was registered at 0.2 percent compared to 0.3 percent registered for the year ended November 2025. This was mainly attributed to the Annual Construction Sector Inflation of Specialised Construction Activities which was registered at 0.2 percent for the year ended December 2025 compared to 0.5 percent registered for the year ended November 2025. See Tables 1 and 2 for more details.

The main driver for the Specialised Construction Activities Inflation was Demolition and Site Preparation whose inflation was registered at 0.8 percent in the year ended December 2025 compared to 1.7 percent registered for the year ended November 2025. Electrical, plumbing and Other Construction Installation Activities Inflation was registered at minus 0.1 percent in the year ended December 2025 the same rate registered for the year ended November 2025. Building Completion and Finishing Inflation was registered at 0.1 percent in the year ended December 2025 the same rate registered for the year ended November 2025.

The Annual Construction Sector Inflation of Civil Engineering / Works was registered at 0.4 percent for the year ended December 2025 the same rate registered for the year ended November 2025. This was mainly attributed to Construction of Roads and Railways whose Inflation was registered at 0.6 percent in the year ended December 2025 the same rate registered for the year ended November 2025. Construction Sector Inflation for Utility Projects was registered at minus 0.5 percent in the year ended December 2025 the same rate registered for the year ended November 2025.

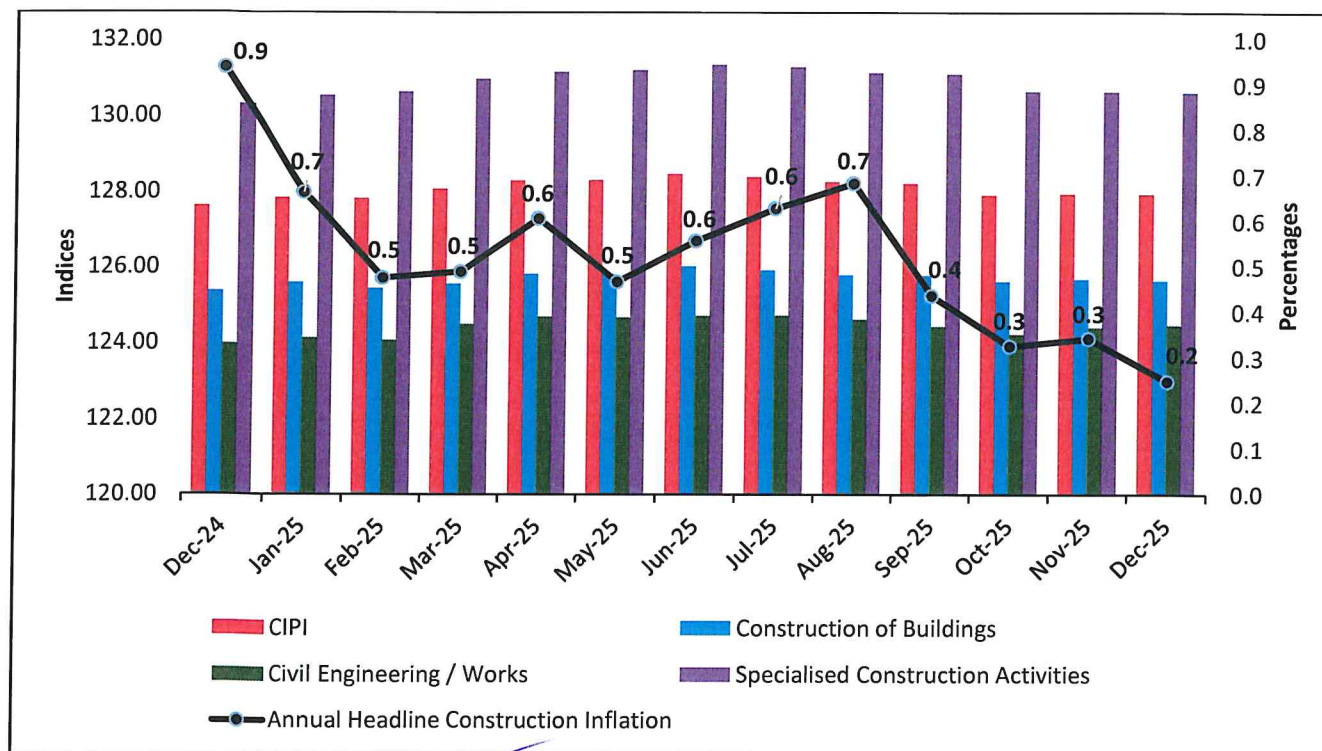

The Annual Construction Sector Inflation of Construction of Buildings was registered at 0.2 percent in the year ended December 2025 the same rate registered in the year ended November 2025. Construction of Non-Residential Buildings was registered at 0.3 percent for the year ended December 2025 the same rate registered for the year ended November 2025. Construction of Residential Buildings was registered at 0.2 percent for the year ended December 2025 compared to 0.1 percent registered for the year ended November 2025.

The overall Annual Construction Input Price Index and Construction Sector Inflation for the 12 months to December 2025 are shown in Table 1 below.
