## FOREWORD

I
n our continued efforts to provide quality Education, information has proved to be a major resource. This resource is used to assess the performance of the sector against set targets, and facilitates the formulation of informed policies and resource mobilization among others. The Education Management Information System (EMIS) is the tool, which enhances data collection, processing and dissemination and makes information readily available in a timely manner.

The information included in this publication is part of the data gathered from the Annual School Census 2009 exercise conducted in June 2009 for the Pre-primary, Primary, Secondary, Post-primary, Tertiary and Non-formal sub-sectors and from other sister bodies like UNEB.

I wish to thank all stakeholders who have played various roles in making the publication of this abstract a reality. Special thanks go to the members of Education Funding Agencies Group (EFAG) who apart from contributing financially also contribute technically in form of quality assurance. My thanks also go to our field officers, the District Education Officers/ Inspectors, Head teachers and the ministry technical team on whose shoulders the burden of quality and timeliness of data lie.
It is worth noting that the comments you make on this abstract will improve our subsequent publications. Further the co-operation from all the stakeholders as established in the past will help nurture and improve further our Education Management Information System (EMIS).

## EXECUTI VE SUMMARY

Ministry of education and sports gathers information on a yearly basis. In 2009, data on schools was collected and analyzed together with data on children's performances obtained from UNEB as indicated in the findings.
The summary of key findings from the 2009 Education statistics presented by subsector as follows;

## a) Pre-Primary Schools

- There were 2,469 pre-primary schools (all were private schools) that responded to the 2009 ASC.
- The total enrolment of pre-primary was 157,002 ( 76,590 male and 80,432 female) pupils, a tune of $51.2 \%$ female.
- 7,177 teachers (1451 male and 5726 female) were captured in pre-primary in 2009.
- The highest percentage ( $32 \%$ ) of pre-primary schools was located in the central region.
- The least percentage (1\%) of pre-primary schools was located in the northern region.

## b) Primary Schools

- There were 17,127 primary schools (12305 Government Aided and 2822 Non Government) that responded to the 2009 ASC.
- The overall enrolment in all primary schools was 8,297,780 (4,150,037 males and $4,147,743$ females). While government aided schools had a composition of 7,185,584 ( $3,595,831$ male and $3,589,753$ female) pupils.
- Overall, in all primary schools, the gender parity gap was closed at $50 \%$ for both boys and girls.
- A total of 168,376 ( 100,264 male and 68,112 female) teachers were registered in all primary schools, with a gender imbalance of $59.5 \%$ in favour of male teachers.
- 126,286(76,802 male and 49,484 female) teachers were registered in Government Aided schools.
- With regard to convenience in class sitting, a total of 5,404,763 pupils had adequate sitting and writing space giving a proportion of $65 \%$ of the total enrolment at national level. The northern region had the smallest proportion of pupils with adequate sitting and writing space with only $50 \%$
- Despite the policy of automatic promotion in primary schools, a repetition rate of $12.2 \%$ was registered, with the rate being highest in the northern region at $17 \%$

## c) Secondary Schools

- There were 3,149 secondary schools (949 Government Aided and 2,200 Non Government) that responded to the 2009 ASC. (a response rate of $67.5 \%$ ).
- Overall enrolment in all secondary schools was of $1,194,454$ students ( 648,014 male and 546,440 female). While government aided schools had a composition of 550,633 ( 311,936 male and 238, 695 female) students.
- A total of 65,045 . ( 50,575 male and 14,473 female) teachers were registered in all secondary schools.
- 26396 (19,790 male and 6,606 female) teachers were registered in Government Aided schools.
- Out of the total enrolment, a total of $1,065,632$ students had adequate sitting and writing space (a proportion of $89.2 \%$ of total enrolment) with the northern region having the smallest proportion of $84.9 \%$

## d) Post Primary Schools

- A total of 139 post primary institutions responded to the 2009 ASC (a response rate of $79.0 \%$, with $89 \%$ government aided institutions.
- A total enrolment of 38,928 was registered in all post primary institutions with a gender parity of 70:30 for boys and girls respectively.

## e) Non Formal Schools

- A total of 359 non formal schools responded to the 20099 ASC ( $64.0 \%$ response rate), out of which $91 \%$ were government aided.
- A total of 33,601 learners were registered in all non formal schools, with a gender imbalance of $54.6 \%$ in favor of girls.

## LI MITATI ONS OF DATA

The data is faced with non responses in some of the schools. Therefore not all schools were reported in the figures as reflected in Table 1. Responses to the census were received from pre-primary schools, primary schools, secondary schools, non-formal schools/ institutions and post-primary institutions as indicated in the Table 1.

Table 1: Response rates by sub sector.

| Sub - Sector | Ownership Status | Number of Schools/ Institutions in Database | Number of Schools/ Institutions that responded to the ASC - 2009 | Response rate | NonResponse rate |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Pre-primary | Private | 4,038 | 1,841 | 45.6\% | 54.4\% |
|  | Community | 640 | 628 | 98.1\% | 1.9\% |
|  | G. Total | 4,678 | 2,469 | 52.8\% | 47.2\% |
| Primary | Government | 12,314 | 12,305 | 99.9\% | 0.1\% |
|  | Private | 6,658 | 3,922 | 58.9\% | 41.1\% |
|  | Community | 906 | 900 | 99.3\% | 0.7\% |
|  | G. Total | 19,878 | 17,127 | 86.2\% | 13.8\% |
| Secondary | Government | 949 | 949 | 100.0\% | 0.0\% |
|  | Private | 3,335 | 1,819 | 54.5\% | 45.5\% |
|  | Community | 382 | 381 | 99.7\% | 0.3\% |
|  | G. Total | 4,666 | 3,149 | 67.5\% | 32.5\% |
| Post-Primary | Government | 126 | 124 | 98.4\% | 1.6\% |
|  | Private | 50 | 15 | 30.0\% | 70.0\% |
|  | G. Total | 176 | 139 | 79.0\% | 21.0\% |
| Non-Formal |  | 561 | 359 | 64.0\% | 36.0\% |

The tables that follow in this abstract give an estimate of the total pupils in each district calculated using the response rate for that district and based on the above response rates. It is not possible to produce all of the tables included in this abstract on this basis, but these however will give a context to those making use of the data.

1. Some of the tables in the abstract present subsets of schools. Combining these will not necessarily give the totals shown in the summary table due to the incidence of unknown values. For example - combining the tables showing enrolment in government, private and community owned schools does not give the total enrolment, as some schools did not provide information about their ownership and hence are only included in the summary table.
2. The age data supplied may to a less extent have some misreporting since the primary source of data is the head teacher (Principal Respondent) who may not be very conversant with the correct ages of some of their pupils. In addition, age data records in most of the homes where pupils come from are very inadequately managed.
3. The definitions on school location were structured in reference to facilities and geographical location. But in practice the characteristics appear different yet they qualify for different geographical location. Categorization of locations by head teachers was difficult since the terms apply differently and are relative in meaning.

### 1.0 GENERAL INFORMATION ON MINISTRY OF EDUCATION AND SPORTS

### 1.1 Introduction

The Ministry of Education and Sports exists to carry out the Government's vision of using quality education delivery to accelerate the nation's socio-economic development.

### 1.1.2 Aims and Objectives

The overall goal of the ministry is to provide relevant and quality education for all Ugandans especially the disadvantaged to enable them acquire skills which will make them functionally literate and productive to facilitate poverty alleviation and promote the rapid socio-economic growth of the country.

### 1.1.3 Mandate

"Plan, formulate, analyze, monitor, evaluate and review policies, provide technical support and guidance, and set national standards for the Education Sector."

### 1.1.4 Mission

"Provide technical support, guide, coordinate, regulate and promote quality education and training to all persons in Uganda for national integration, development and individual advancement".

### 1.1.5 Framework for Education and Sports Delivery and Development

The Poverty Eradication Action Plan (PEAP) provides the national framework for education and sports' delivery and development. The Education and Sports sector constitutes a key sector under pillar 5 which addresses the challenge of human development in the country.
At the sector level, the Government White Paper on Education (1992), the Physical education and Sports Policy (2004), contained in Education Sector Strategic Plan (2007-2015), and the international Commitment on Education (i.e. EFA and MDGs) continued to provide a framework for Education and Sports service delivery.

### 1.1.6 Legal and Regulatory Framework

The Sector's Legal and Regulatory Framework is comprised of the Constitution of the Republic of Uganda (1995); the Education Sector Policy as contained in the Government White Paper on Education (1992) and various Policy initiatives formulated hereafter (i.e. the UPE Policy; USE/ UPPET policy, science education policy etc) laws particularly the Education Bill (2008), the BTVET Act (2008), the Universities and other Tertiary Institutions Act (2001), the UNEB Act (1983), NCDC Act (2000) and Education Service Act (2002).

### 1.1.7 Institutional Framework

The Education and Sports Sector is comprised of two sectors; the public and private sectors. The Public Sector is constituted by Departments and Affiliate bodies under MoES, Key line ministries (i.e. MoFPED, MoLG, MoPS) the District Local Governments and Municipal authorities. A number of Departments under MoES expanded from 10 to 12 as a result of the restructuring of the Ministry that created two new departments (Guidance and Counseling and Private Secondary Schools). In addition the restructuring created four new directorates (i.e. Higher, Technical and Vocational Education and Training; Basic and Secondary Education Standards and Industrial training).
The private sector is diverse and comprised of individual investors, communities, civil society organizations, international NGOs and Faith Based Organizations.

### 1.1.8 Sector Policy Objectives, Priorities and Thrusts

The broad sector objectives are expansion of access to equitable and quality education at all levels as well as enhancement of efficiency and effectiveness in service delivery.

### 1.1.9 Policy priorities

## (a) Education

(i) To ensure universal and equitable access to quality education for all children;
(ii) To improve the quality of Education at all levels;
(iii) To ensure equal access by Gender, district and Special needs at all levels;
(iv) To build capacity of districts education managers for planning, implementation, monitoring and accountability;
b) Physical Education and Sports
(i) To improve planning, management and administration of Physical Education and Sports;
(ii) To improve access to and equality of Physical Education and Sports ;
(iii) To develop a cadre of high performing national athletes on a sustainable basis.

### 1.1.10 Key Aspects of Government Education Policy

### 1.1.10.1 Universal Primary Education (UPE) Policy

The Education Policy Review Commission (EPRC) recommended that Universal Primary Education (UPE) be achieved by the year 2000 for the children aged 6-10 (for the first five years), and for the entire primary cycle by the year 2010. The policy objectives of providing UPE include: -

- Establishing, providing and maintaining quality education to promote national human resource development;
- Making basic education equitable, accessible and relevant to the nation; and
- Ensuring that education is affordable to the majority of Ugandans.

### 1.1.10.2 Secondary and Tertiary Education Policy

With regard to secondary and tertiary education, government policy is to increase cost sharing by shifting boarding costs onto beneficiaries. Government has equalized capitation grants for boarding and non-boarding schools, thereby shifting boarding costs to beneficiaries. Government overall expenditure in the education sector is to shift increasing resources to Universal primary Education.

### 1.1.10.3 Business and Vocational Education Training Policy (BTVET).

The current government policy on technical education and Vocational Education Training (BTVET) aims at: -

- Introduction of changes necessary to create a favorable environment for industrial training,
- improvement in the effectiveness and efficiency in public training;
- Provision of training by employers and the private sector;
- Changing the negative attitudes towards technical and vocational education programmes;
- Integrating technical and business/ or entrepreneurial skills to enable students to enter self employment;
- Provision of at least one vocational secondary school in every district; and
- Vocationalisation of both primary and secondary education system to ensure provision of useful and employable skills at the end of each stage of the educational cycle.

### 2.0 EDUCATION MANAGEMENT INFORMATION SYSTEM

The annual education census exercise allows the Ministry of Education and Sports to collect all the necessary information about education in Uganda. This information is used as an input to the planning and monitoring of the provision of quality and relevant education to Ugandans. It is intended that the census should address the information needs of all stakeholders.

In its efforts to improve on the timeliness, accuracy reliability and availability of information to various users, the Ministry of Education and Sports, in 1999, embarked on the design and implementation of a sector Educational Management Information System (EMIS) in which the district would be the focal point. The Ministry contracted M/S AED/African to design and implement EMIS both by developing the necessary software and re-engineering practices and procedures. Decentralization of data processing in the EMIS has not taken off yet despite numerous efforts by the districts and the central government because of infrastructure constraints. However, a lot has been achieved in terms of data gathering and the struggle is still on. (Alluta Continua).

### 2.1 Methodology

In an effort to decentralize the data gathering, processing and utilization to districts District Education Officers, District Inspectors of Schools and Education Officers/ Inspectors of Schools in charge of counties and school head teachers were intensively involved. Regional teams were dispatched to undertake intensive training in each district. This is part of the plan to decentralize EMIS through capacity building.

### 2.2 Data Gathering

Ministry of Education and Sports first organized a workshop to train the data collection team. When the team was set off to the field, other workshops were held at the districts where all head teachers of a given district converged and discussed the questionnaires and were also trained on how data was to be collected or filled by the head teacher. The mode of data collection used was "self administered post-mail questionnaire" and following the routine respondent training the EMIS technical team carried out, the questionnaires were then distributed to schools, accompanied by detailed sets of instructions manuals. These instructions covered all major definitions, the process, the responsible agents and the expected length of time for each major step.

Questionnaires were administered to school heads through the DEOs for the Annual School Census. After the questionnaires were administratively filled, they were returned to the Ministry Headquarters. Data was then entered in web based software (stat-educ designed by UNESCO Institute of Statistics). Data was cleaned and analysis done using SQL server 2005. Reports were generated by OLAP cubes (online software) from where enrolment figures were obtained.
Population figures were officially requested from UBOS.

### 2.3 Data Validation

EMIS carried out verification exercises as sample studies to verify the accuracy of data provided by school heads in the census questionnaires. Following this model, questionnaires and instructional manuals for the census 2009 were designed and circulated for comments, and the comments were applied in the refinement of instrument development. District training workshops for the past three school census exercises have included direct participation of school head teachers to optimize the impact of training.

### 2.4 Data Processing

Data entry was done by data entry clerks hired to specifically input data under the supervision of the EMIS technical team in Ministry of Education and Sports. Before data capture, ED*ASSIST software was used to track schools/institutions in the main school registry. During data entry only questionnaires without errors were entered and incorrectly filled questionnaires were either referred to respondents or edited by MOES staff. This was to ensure that the quality of entered data was high and to limit the time spent on data cleaning

## STAT IST ICS AND INDICATORS IN MOES

### 3.0 PRE-PRIMARY SUB-SECTOR STATISTICS

The commonly used pre-primary sub-sector statistics include school information, statistics on pre-primary pupils; - enrolment figures, teacher statistics;-number of teachers and their level of education, infrastructure statistics; - number of classrooms, latrines, staffrooms etc and the derived Pupil Teacher Ratio and Pupil Classroom Ratio.

### 3.1 School Information

### 3.1.1 Number of schools by Region

A total of 2,469 pre-primary schools were registered (1,841 in private and 628 community). $32 \%$ are located in the central region while the least number of pre-primary schools (1\%) were in the North Eastern region

Table 2: Number of pre-primary schools by region 2009

| Number of pre-primary schools |  |  |  |  |  |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Region | Private |  | Community | Total | Percent |
| Central | 695 | 90 | 785 | $32 \%$ |  |
| East | 298 | 128 | 426 | $17 \%$ |  |
| N. East | 9 | 7 | 16 | $1 \%$ |  |
| North | 237 | 121 | 358 | $14 \%$ |  |
| S. West | 345 | 222 | 567 | $23 \%$ |  |
| West | 257 | 60 | 317 | $13 \%$ |  |
| Grand Total | $\mathbf{1 , 8 4 1}$ | $\mathbf{6 2 8}$ | $\mathbf{2 , 4 6 9}$ | $\mathbf{1 0 0 \%}$ |  |

### 3.1.2 Number of schools by location

2009 census results in figure 1 gives an illustration that more pre-primary schools were located in rural areas $(1,067)$ as compared to the urban region $(560)$.

Figure 1: number of pre-primary schools by location 2009

### 3.1.3 Number of schools by registration status

Table 3 shows that $51.84 \%$ of the pre-primary schools were not registered. Only $15.71 \%$ pre-primary schools were registered.

Table 3: Number of Pre-primary schools by registry status

| Registry Status | Number of Schools | \% of schools |
| :---: | ---: | ---: |
| Registered | 388 | $15.71 \%$ |
| Licensed | 274 | $11.1 \%$ |
| Not registered | 1280 | $51.84 \%$ |
| Not Reported | 527 | $21.34 \%$ |
| Grand Total | $\mathbf{2 4 6 9}$ | $\mathbf{1 0 0 \%}$ |

EMIS 2009.

### 3.1.4 Number of schools by distance from the nearby school

$48.64 \%$ schools were located 1 km apart (for each other). $15 \%$ were between $1-2 \mathrm{~km}, 23 \%$ schools did not indicate the distances as presented in figure 2 below.

Figure 2: Number of Pre-Primary schools by distance to the nearest school

EMIS 200

### 3.2 Pre-Primary Enrolment (2009)

In 2009, the total enrolment in pre-primary education was 157,002. (76,590 male and 80,432 female) children as indicated in the Table 4 below.

Table 4: enrolment by and children with special need by region in Pre-primary schools

| Region | Enrolment in Pre-primary |  |  | Children with special Needs |  |  |  |
| :--- | ---: | ---: | ---: | :--- | ---: | ---: | :---: |
|  | Male | Female | Total | Male | Female | Total |  |
| Central | 22241 | 22904 | 45,145 | 305 | 271 | 576 |  |
| East | 12337 | 12710 | 25,047 | 336 | 282 | 618 |  |
| N. East | 1092 | 1162 | 2,254 | 31 | 21 | 52 |  |
| North | 20088 | 21828 | 41,916 | 842 | 1005 | 1847 |  |
| S. West | 11833 | 12368 | 24,201 | 490 | 459 | 949 |  |
| West | 8999 | 9460 | 18,459 | 308 | 270 | 578 |  |
| Total | $\mathbf{7 6 5 9 0}$ | $\mathbf{8 0 4 3 2}$ | $\mathbf{1 5 7 , 0 2 2}$ | $\mathbf{2 3 1 2}$ | $\mathbf{2 3 0 8}$ | $\mathbf{4 , 6 2 0}$ |  |

### 3.3 Number of pre-primary children with disability by gender and type

In 2009, 4,620 pupils in pre-primary were disabled. And this is disaggregated by mental, visual, physical, autism and multiple handicaps as shown in table 5 below.

Table 5: Number of children with disability by gender and type

| Type Grade | Gender | Mentally | Visually | Hearing | Physically | Autism | Multiple | Grand |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Lower Baby | Male | 74 | 46 | 77 | 53 | 36 | 57 | 343 |
|  | Female | 71 | 47 | 75 | 71 | 52 | 71 | 387 |
|  | Total | 145 | 93 | 152 | 124 | 88 | 128 | 730 |
| Middle Class | Male | 272 | 148 | 295 | 196 | 87 | 94 | 1092 |
|  | Female | 214 | 137 | 290 | 192 | 84 | 111 | 1028 |
|  | Total | 486 | 285 | 585 | 388 | 171 | 205 | 2120 |
| Top Class | Male | 205 | 150 | 211 | 178 | 60 | 73 | 877 |
|  | Female | 193 | 153 | 242 | 167 | 63 | 75 | 893 |
|  | Total | 398 | 303 | 453 | 345 | 123 | 148 | 1,770 |
| Total Male |  | 551 | 344 | 583 | 427 | 183 | 224 | 2,312 |
| Total Female |  | 478 | 337 | 607 | 430 | 199 | 257 | 2,308 |
| Grand Total |  | 1,029 | 681 | 1190 | 857 | 382 | 481 | 4,620 |

EMIS 2009

### 3.4 Pre-Primary Teachers

### 3.4.1 Pre-primary Teachers by Qualification

Table 6 presents the number of pre-primary teachers by their qualifications per region. It also indicates the number of trained and untrained teachers in this sub sector. A total of 7177 pre-primary teachers were registered (1451 male and 5726 female) in 2009. Female teachers in pre-primary sector accounted to $79.8 \%$ and the male were only $20.2 \% 43 \%$ of the pre-primary teachers were Grade III teachers, $25 \%$ Licensed and Grade II, the central region had the highest number of teacher and trained teachers as well.
Table 6: Pre-primary teachers by Level of Education

| Region | pre-primary teachers |  |  | Trained teachers |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Male | Female | Total | Male | Female | Total |
| Central | 141 | 2,389 | 2,530 | 75 | 1,778 | 1,853 |
| East | 311 | 884 | 1,195 | 108 | 521 | 629 |
| N. East | 5 | 40 | 45 | 2 | 15 | 17 |
| North | 258 | 849 | 1,107 | 131 | 557 | 688 |
| S. West | 510 | 909 | 1,419 | 134 | 469 | 603 |
| West | 226 | 655 | 881 | 135 | 483 | 618 |
| Grand Total | $\mathbf{1 , 4 5 1}$ | $\mathbf{5 , 7 2 6}$ | $\mathbf{7 , 1 7 7}$ | $\mathbf{5 8 5}$ | $\mathbf{3 , 8 2 3}$ | $\mathbf{4 , 4 0 8}$ |

EMIS 2009

### 3.4.2 Pre-Primary Teachers by Education Level

$48 \%$ of the teachers in pre-primary education had $0^{\prime}$ Level and $31 \%$ of the teachers had $0^{\prime}$ Level and Certificate/ Diploma.

Figure 3: number of pre-primary teachers by Level of Education

### 3.5 Pre-Primary Infrastructure Information (2009)

In 2009, there were 5, 624 classrooms in pre-primary, 1, 475 storerooms and 1, 840 play ground and other facilities as indicated in table 7 below.

Table 7: Infrastructure in Pre-primary Schools

| Region | Central | East | N. East | North | S. West | West | Grand Total |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Classrooms | 1,914 | 828 | 29 | 876 | 1,193 | 784 | 5,624 |
| Store Rooms | 539 | 236 | 7 | 226 | 263 | 204 | 1,475 |
| Playgrounds | 521 | 321 | 15 | 272 | 455 | 256 | 1,840 |
| Sand Pitches | 288 | 130 | 4 | 145 | 152 | 121 | 840 |
| Climbers | 324 | 94 | 7 | 71 | 172 | 120 | 788 |
| Sliders | 342 | 86 | 5 | 117 | 131 | 102 | 783 |
| Swings | 791 | 197 | 31 | 312 | 249 | 202 | 1,782 |
| Jigsaws | 2,537 | 1,107 | 15 | 203 | 1,064 | 644 | 5,570 |

| Others | 2,095 | 922 | 5 | 941 | 854 | 647 | 5,464 |
| Grand Total | 21,497 | 9,460 | 325 | 7,336 | 10,635 | 8,044 | 57,297 |

### 4.0 PRIMARY SUB-SECTOR STATISTICS

### 4.1 School Particulars

Since introduction of UPE policy in 1997, government has steadily increased its share of primary schools through construction of new schools using the Schools Facilities Grant (SFG) scheme as well as extending grant aid to community and private schools.

### 4.1.1 Primary Schools by Ownership

According to the MoES database there are 19,877 primary schools on the schools register however, only $17,127(86 \%)$ schools responded to the 2009 school census and out of those that responded, the majority ( $71.9 \%$ ) were government schools, $22.9 \%$ were private schools and $5.2 \%$ were community schools.

Note: $14 \%$ of the 17,127 schools had estimated data. That's to say that they responded in 2008 but never responded to the 2009 Census and therefore to be consistent a replacement method was applied and $14 \%$ are reflected to have had estimated data.

Figure 4: Primary Schools by Ownership

### 4.1.2 Schools by Location and Registration Status.

Considering other school attributes, the majority of primary (73.8\%) schools were located in rural areas. In terms of registration, $75.8 \%$ of primary schools were fully and officially registered by the ministry of Education and Sports as illustrated in figure 5 below.

Figure 5: Primary Schools by Location and Registration Status.

### 4.1.3 Distances from DEOs office and schools of similar characteristics

In terms of distance between the DEOs office and schools, $86 \%$ of primary schools were within a radius of $50 \mathrm{kms}, 12.8 \%$ were in a distance of more than 50 kms and $1.2 \%$ did not report their proximities in relation to DEOs' offices. This pattern shows that the DEOs office has to be well facilitated (transport and man-power) for it to reach out and do effective schools inspection because of a sizeable number of schools that were very far to reach. It even becomes worse for head teachers to go to district offices when they are physically required at the DEOs office.

Considering distances between schools of similar levels, at national level $84.8 \%$ of primary schools were within a radius of 5 kms from their neighbouring primary schools contrary to the $7 \%$ schools who were within a distance of more than 5 kms from similar neighbouring schools.

### 4.1.4 Primary Schools by Boarding Type

Most of the primary schools ( $86 \%$ ) were day schools while only $1 \%$ of the schools were found to be full boarding schools. This is in line with the UPE policy of all primary schools under UPE to be day schools. However, 7\% were partly boarding and this was mainly for the candidate class as they prepare them for Primary Leaving Examinations.

Figure 6: Primary Schools by Boarding Type

### 4.2 Primary Enrolment

### 4.2.1 Enrolment in primary schools by Ownership

A total enrolment of $8,297,780$ pupils ( $4,150,037$ male and $4,147,743$ female) was registered in 2009. Of this enrolment, government aided schools took a proportion of $86.6 \%$ with a total enrolment of $7,185,584$ ( $3,595,831$ males \& $3,589,753$ females).

Figure 7: Primary Enrolment for 2009 in All Schools and in Government Aided Schools

### 4.2.2 Primary Enrolment by gender and grade

Considering enrolment by gender and grade, the gender parity gap has tremendously reduced with $50.01 \%$ of the total enrolments in all primary schools being boys and $49.99 \%$ girls (that's to say 50.0:50.0). The bulk of pupils were in the lower classes especially primary one as reflected in figure 8 below.

Figure 8: Primary Schools Enrolment by Grade and Gender

In general the percentage distribution of pupils by class was 23\% for Primary 1 (P1), 16\% for Primary 2 (P2), 16\%for Primary 3 (P3), 15\% for Primary 4 (P4), 13\% for Primary 5 (P5), $10 \%$ for Primary 6 (P6) and 7\%for Primary 7 (P7). There were drastic declines in enrolment between P1 \& P2 and P6 \& P7 and these were attributed to high repetition rates caused by under age children in primary 1 and pupils in pre-candidate class not deemed fit to sit for end of primary cycle examinations. This is however contrary to the automatic promotion policy. Out of the total enrolment, primary one (P1) had the majority share of $23 \%(1,946,318$ pupils) with $1,698,944$ as new entrants.

Results from figure 8 above show that there was a sharp drop from primary one to primary two and thereafter a gradual drop in enrolment from lower to higher classes. This is an indication that a significant number of pupils abandon school before completing primary seven. However, for all classes there wasn't a significant difference between the number of boys and girls abandoning school.

### 4.2.3 Primary Enrolment by Region

Enrolment figures by region indicate that the Eastern region had the highest percentage share of enrolment in all primary schools with $28.1 \%$ The central region had over $22.9 \%$ of total enrolment, followed by the Northern region with $21.3 \%$ whereas the North Eastern region had the least share of only $1.7 \%$
With regard to government schools, still the eastern region had the highest enrolment with over $29.9 \%$ of total enrolment in government aided schools. The northern region followed in this case with $23.4 \%$ while the central region shared $19.5 \%$ of the enrolment. The North eastern region had the lowest share of $1.5 \%$

Table 8: Primary Enrolment by Region

|  | All Schools |  |  |  | Government Schools |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Female | Total | \%Share of <br> Total <br> Enrolment | Male | Female | Total | \%Share of <br> Total <br> Enrolment |
| Central | 931,606 | 971,982 | $1,903,588$ | $22.9 \%$ | 684,546 | 716,297 | $1,400,843$ | $19.5 \%$ |
| East | $1,153,967$ | $1,174,733$ | $2,328,700$ | $28.1 \%$ | $1,063,011$ | $1,086,977$ | $2,149,988$ | $29.9 \%$ |
| N. East | 70,795 | 67,944 | 138,739 | $1.7 \%$ | 56,920 | 54,143 | 111,063 | $1.5 \%$ |
| North | 920,559 | 847,477 | $1,768,036$ | $21.3 \%$ | 876,024 | 805,720 | $1,681,744$ | $23.4 \%$ |
| S. West | 444,422 | 432,798 | 877,220 | $10.6 \%$ | 393,626 | 381,396 | 775,022 | $10.8 \%$ |
| West | 628,688 | 652,809 | $1,281,497$ | $15.4 \%$ | 521,704 | 545,220 | $1,066,924$ | $14.8 \%$ |
| National | $\mathbf{4 , 1 5 0 , 0 3 7}$ | $\mathbf{4 , 1 4 7 , 7 4 3}$ | $\mathbf{8 , 2 9 7 , 7 8 0}$ | $\mathbf{1 0 0 . 0 \%}$ | $\mathbf{3 , 5 9 5 , 8 3 1}$ | $\mathbf{3 , 5 8 9 , 7 5 3}$ | $\mathbf{7 , 1 8 5 , 5 8 4}$ | $\mathbf{1 0 0 . 0 \%}$ |

### 4.3 Pupils with Adequate Sitting Space

### 4.3.1 Sitting Space by Grade in Primary Schools

Results from figure 9 show that lower classes had lower percentages of pupils with adequate seating space.

Figure 9: Ratio of Pupils with Enough Seating Space by Grade in Primary Schools

### 4.3.2 Pupils with Adequate Sitting Space by Region

A total of $5,404,763$ pupils were reported to have adequate sitting and writing space in class. These give a proportion of over $65 \%$ of total enrolment at national level. At regional level, the central region had the highest proportion of pupils with adequate sitting and writing space with over $77 \%$ western region had $72 \%$ south western ( $70 \%$, north eastern ( $67 \%$ ), eastern region ( $62 \%$ ) while the northern region was the least advantaged with a proportion of $50 \%$

Table 9: Proportion of Pupils with Adequate Sitting and Writing Space by Region in Primary Schools

| Region | Pupils with Sitting Space | Enrolment | Proportion (\%) |
| :--- | ---: | ---: | ---: |
| Central | 1465,810 | $1,903,588$ | $77 \%$ |
| East | $1,442,431$ | $2,328,700$ | $62 \%$ |
| N. East | 93,484 | 138,739 | $67 \%$ |
| North | 875,192 | $1,768,036$ | $50 \%$ |
| S. West | 610,594 | 877,220 | $70 \%$ |
| West | 917,252 | $1,281,497$ | $72 \%$ |
| National | $\mathbf{5 , 4 0 4 , 7 6 3}$ | $\mathbf{8 , 2 9 7 , 7 8 0}$ | $\mathbf{6 5 \%}$ |

### 4.4 New Entrants in primary (2009)

Out of the total enrolment in primary one (P1) of $1,946,318$ pupils, a total of $1,698,944$ were new entrants. Considering the age distribution of new entrants in the first grade of primary education, $44.5 \%$ of the new entrants were aged 6 years which is the official age of primary school entry. Results show that $5.3 \%$ of the entrants were underage whereas over $50.2 \%$ of the new entrants were overage pupils.

Figure 10: Age Distribution of New Entrants in Primary One

### 4.5 Repeaters

### 4.5.1 Repeaters by grade

Despite the existence of the automatic promotion policy in primary schools (especially government aided schools); repetition rate is still high in primary schools at over $12.2 \% \mathrm{~A}$ class analysis on repetition shows that the rate of repetition is highest in P. 1 at $13.5 \%$ followed by P. 6 at $12.9 \%$ The high repetition in P. 1 is connected to underage pupils, whereas for P. 6 is due to pre-candidates deemed unfit to sit end of cycle exams.

Figure 11: Repetition Rate by Grade in Primary Schools

### 4.5.2 Repetition in Primary schools by Region and Gender

At regional level, repetition rate was observed to vary with the northern region having the highest rate at $17 \%$ The eastern region followed with a rate of $12.7 \%$ while the central region had the lowest repetition rate of $8.3 \%$ Repetition rate was slightly higher in male pupils with $12.4 \%$ against $12.0 \%$ for females.

Table 10: Repetition in Primary Schools by Region and Gender

|  | Repeaters |  |  |  | Repetition Rate |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male |  |  | Female | Total | Male |
| Female | Total |  |  |  |  |  |
| Central | 76,694 | 71,267 | 147,961 | $8.8 \%$ | $7.8 \%$ | $8.3 \%$ |
| East | 141,537 | 140,208 | 281,745 | $12.9 \%$ | $12.6 \%$ | $12.7 \%$ |
| N. East | 6,672 | 6,870 | 13,542 | $9.9 \%$ | $10.2 \%$ | $10.1 \%$ |
| North | 154,749 | 148,309 | 303,058 | $16.6 \%$ | $17.5 \%$ | $17.0 \%$ |
| S. West | 49,796 | 48,212 | 98,008 | $12.2 \%$ | $12.0 \%$ | $12.1 \%$ |
| West | 63,653 | 64,137 | 127,790 | $10.5 \%$ | $10.2 \%$ | $10.3 \%$ |
| National | $\mathbf{4 9 3 , 1 0 1}$ | $\mathbf{4 7 9 , 0 0 3}$ | $\mathbf{9 7 2 , 1 0 4}$ | $\mathbf{1 2 . 4 \%}$ | $\mathbf{1 2 . 0 \%}$ | $\mathbf{1 2 . 2 \%}$ |

### 4.6 Pupils with Disabilities

### 4.6.1 Disability by Type of Impairment in Primary Schools

A total of 204, 352 pupils with disabilities were registered in 2009 comprising $2.5 \%$ of the total enrolment in primary schools. The largest percentage of pupils with disabilities had hearing impairment with over $29.3 \%$ followed by the visually impaired at $25.8 \%$ and mentally impaired at $21.9 \% 4.1 \%$ were autistic while the least percentage were pupils with multiple handicaps at 2.6\%

Figure 12: Percentage distribution of Disabled Pupils by type of Impairments

### 4.6.2 Disabled Pupils by Region and Gender

Results show that a total of 204, 352 pupils were affected by a given type of impairment, and these comprised of $2.5 \%$ of the total pupil enrolment. At regional level the highest percentage of disabled pupils were observed in the northern region with $3.3 \%$ these were followed by pupils from south western region with over $2.8 \%$ enrolment being disabled, while the least percentage (proportion) of disabled pupils were observed in the western region with $1.8 \%$ of the pupil enrolment. Disaggregation by gender shows that male pupils had a higher proportion of disabled pupils of $2.6 \%$ against $2.3 \%$ for females.

Table 11: Proportion of Disabled Pupils by Region and Gender

|  | Disabled Pupils |  |  | \% of Disabled Pupils |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Female | Total | Male | Female | Total |
| Central | 18,740 | 16,507 | 35,247 | $2.0 \%$ | $1.7 \%$ | $1.9 \%$ |
| East | 32,222 | 28,813 | 61,035 | $2.8 \%$ | $2.5 \%$ | $2.6 \%$ |
| N. East | 1,537 | 1,264 | 2,801 | $2.2 \%$ | $1.9 \%$ | $2.0 \%$ |
| North | 30,350 | 27,481 | 57,831 | $3.3 \%$ | $3.2 \%$ | $3.3 \%$ |
| S. West | 12,950 | 11,916 | 24,866 | $2.9 \%$ | $2.8 \%$ | $2.8 \%$ |
| West | 12,185 | 10,387 | 22,572 | $1.9 \%$ | $1.6 \%$ | $1.8 \%$ |
| National | $\mathbf{1 0 7 , 9 8 4}$ | $\mathbf{9 6 , 3 6 8}$ | $\mathbf{2 0 4 , 3 5 2}$ | $\mathbf{2 . 6 \%}$ | $\mathbf{2 . 3} \%$ | $\mathbf{2 . 5 \%}$ |

### 4.7 Orphans in Primary Schools

Census results show that a total of $1,304,576$ pupils had lost either a parent or both. The figure comprised $15.7 \%$ of the entire enrolment figure in primary schools, with the proportion of boys slightly higher at $15.9 \%$ than that of girl orphans (15.6\%). A regional analysis indicated that the central region had the highest proportion of orphans (at $20.5 \%$ ) as compared to the enrolment in all primary schools within the region. The northern region followed with $15.6 \%$ of the enrolment being orphaned pupils, south western ( $15.5 \%$, western ( $15.4 \%$ ), eastern $(12.5 \%)$ while the north eastern region with the least proportion had $11.5 \%$ of the enrolment
orphaned. At district level variations in proportion of orphans ranged from $6.8 \%$ to $33.4 \%$ at district level. A district analysis on proportion of orphans indicated war affected areas as well as areas of high HIV/ AIDS prevalence taking the lead.

Table 12: Proportion of Orphaned Pupils in Primary Schools by Region and Gender

|  | Orphaned Pupils |  |  | \% of Orphaned Pupils |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Female | Total | Male | Female | Total |
| Central | 196,531 | 194,078 | 390,609 | $21.1 \%$ | $20.0 \%$ | $20.5 \%$ |

| West | 98,357 | 98,488 | 196,845 | $15.6 \%$ | $15.1 \%$ | $15.4 \%$ |
| National | $\mathbf{6 5 8 , 8 6 2}$ | $\mathbf{6 4 5 , 7 1 4}$ | $\mathbf{1 , 3 0 4 , 5 7 6}$ | $\mathbf{1 5 . 9 \%}$ | $\mathbf{1 5 . 6 \%}$ | $\mathbf{1 5 . 7 \%}$ |

### 4.8 Primary Schools Teachers

### 4.8.1 Teachers by Region

By 2009 a total of 168,376 teachers were registered in all primary schools, with a gender imbalance of $59.5 \%$ in favour of male teachers. A percentage distribution of teachers across regions indicates that the central region had the highest percentage share of primary teachers with over $28.8 \%$ followed by the eastern region with $23.7 \%$ the western region had $19.1 \%$ of the teachers. Other regions were; northern region ( $16.5 \%$ ), south western ( $10.2 \%$ while the north eastern had the least share of teachers with $1.7 \%$

Table 13: Distribution of teachers by region in Primary Schools

| Region | Male | Female | Total | Percentages |
| :--- | ---: | :--- | ---: | ---: |
| Central | 23,391 | 25,183 | 48,574 | $28.8 \%$ |
| East | 24,389 | 15,582 | 39,971 | $23.7 \%$ |
| $\mathbf{N}$. East | 1,784 | 1,033 | 2,817 | $1.7 \%$ |
| North | 20,577 | 7,147 | 27,724 | $16.5 \%$ |
| S. West | 10,706 | 6,410 | 17,116 | $10.2 \%$ |
| West | 19,417 | 12,757 | 32,174 | $19.1 \%$ |
| National | $\mathbf{1 0 0 , 2 6 4}$ | $\mathbf{6 8 , 1 1 2}$ | $\mathbf{1 6 8 , 3 7 6}$ | $\mathbf{1 0 0 . 0 \%}$ |

### 4.8.2 Primary Teachers by Qualification

Results show that Majority of the teachers 107,564 (63.9\%) had attained a qualification of Grade III. With Grade III taken as the minimum level of professional teacher qualification in primary education, over $90.6 \%$ of the teachers were qualified to the acceptable standard. However, over $3.7 \%$ of the teachers' qualification status was not reported.

Figure 13: Distribution of Primary Teachers by Qualification

### 4.8.3 Primary Teachers by school ownership

Table 15 presents primary teachers in primary schools by schools ownership. Out of 168,376 teachers, 126,286 teachers were in government schools while only 42,090 teachers were in private schools in 2009.

Table 15: number of teachers by ownership

| Gender | government | Non government | Total |
| :--- | ---: | ---: | ---: |
| Male | 76,802 | 23,462 | $\mathbf{1 0 0 , 2 6 2}$ |
| Female | 49,484 | 18,628 | $\mathbf{6 8 , 1 1 2}$ |
| Total | $\mathbf{1 2 6 , 2 8 6}$ | $\mathbf{4 2 , 0 9 0}$ | $\mathbf{1 6 8 , 3 7 6}$ |

### 4.9 Water Sources in Primary Schools

Census findings show that majority of primary schools (over 33.5\%) had boreholes as their main source of water. These were followed by schools that accessed water from wells/ springs at $25.5 \%$ whereas schools that had rain water tanks followed at $17.3 \%$ Only $16.7 \%$ of the schools could afford piped water as their main source of water, with the least percentage (4.2\%) of the schools accessing lakes/ river water as illustrated in Figure 14 below.

Figure 14: Percentage distribution of Main Water Sources in Primary Schools

### 4.10 Energy Sources in Primary Schools

Analysis on energy sources used in primary schools indicates that the highest percentage of schools (over $85.2 \%$ ) use firewood, followed by those that use electricity at $7.0 \%$ while schools that used charcoal were over $5.1 \%$ the least percentage of schools ( $0.4 \%$ used cow dung as their main energy source.

Figure 15: Percentage distribution of Energy Sources in Primary Schools

### 5.0 SECONDARY SCHOOLS STATISTICS

The key commonly used indicators of statistics include; Students information, School information, Teacher information and Infrastructure information.

Secondary education is provided through a network of 3149 (949 government schools and 2, 200 non government schools. The percentage share of government funded responding schools (both fully and partially) contributes $39.4 \%$ of the total secondary schools.

Overall, there was an increase of $4 \%$ in the number of schools responding from 2,908 in 2008 to 3,149 schools in year 2009. There are also a very small number of international schools that deliver foreign curricula.

Rural based secondary schools account for $42.3 \%$ of the total number of schools. Most of the private schools are found in urban areas. The introduction of Universal Secondary Education (USE)/Universal Post Primary Education and Training (UPPET) in 2007 increased school enrolment (S1 - S6) by $25 \%$ from 814,087 in 2006 to $1,194,454$ students in 2009, with girls constituting $45.7 \%$ of the total enrolment.

### 5.1 Secondary school information

### 5.1.1 Secondary Schools by Ownership

According to Figure 16, out of a total of 3,149 secondary schools covered in the 2009 Annual Schools Census, $58 \%$ were private, $12 \%$ were community and $30 \%$ were Government aided. Overall there was an increase in the number of schools responding from 2,908 in 2008 to 3,149 schools in year 2009, an increase of $4 \%$ This increment is due to the positive response of the private schools which constitute the biggest percentage.

Figure 16: Secondary Schools by Ownership

### 5.1.2 Secondary Schools by Funding Source

Figure 17 Shows that $23 \%$ of the schools were Government aided, $17 \%$ were partly government aided and $36 \%$ were Not Government aided. However $24 \%$ of the schools that returned their questionnaires did not indicate their major source of funding.

Figure 17: Secondary Schools by Funding Source

### 5.1.3 Schools Distance from DEO's Main Office

According to Table 17 below, $75.9 \%$ of schools out of those that responded were in a radius of 30 kms or less from DEOs office. And $7.4 \%$ of schools were in a radius of 50 kms and more, yet $1.3 \%$ of schools did not indicate their distance between their school premises and DEOs offices.

Table 14 Secondary Schools Distance from DEO's Office

| Distance from DEO's Office | No. of Schools | \% of Schools |
| :--- | ---: | ---: |
| Below 10 km | 1226 | 38.9 |
| $10-20 \mathrm{~km}$ | 729 | 23.2 |
| $20.1-30 \mathrm{~km}$ | 436 | 13.9 |
| $30.1-40 \mathrm{~km}$ | 277 | 8.8 |
| $40.1-50 \mathrm{~km}$ | 209 | 6.6 |
| Above 50 km | 232 | 7.4 |
| Not Reported | 40 | 1.3 |
| Grand Total | $\mathbf{3 , 1 4 9}$ | $\mathbf{1 0 0 . 0}$ |

### 5.1.4 Schools by Location

According to Figure 18 below, the biggest percentage of schools (42\%) were located in rural areas, other schools totaling to $12 \%$ and $20 \%$ were situated in the Urban and PeriUrban areas respectively, whereas over $26 \%$ of the schools' location was not disclosed in the returns of the census questionnaires.

Figure 18: Secondary Schools by Location

### 5.1.5 Schools by Registration Status

Results in Table 18 below show that out of the total number of schools, $42.4 \%$ were not registered by the Ministry of Education and Sports. This combines "Licensed but not registered", "Not registered" plus the "Not Reported" categories.

Table 15: Secondary - Schools by Registry Status -2009.

| Registry Status | No. of Schools | \% of Schools |
| :--- | ---: | ---: |
| Registered | 1814 | 57.6 |
| Licensed | 297 | 9.4 |
| Not registered | 217 | 6.9 |
| Not reported | 821 | 26.1 |
| Grand Totals: | $\mathbf{3 , 1 4 9}$ | $\mathbf{1 0 0}$ |

### 5.1.6 Secondary Schools by Founding Body

With Regard to the founding body of the schools, schools founded by Church of Uganda (COU), Roman Catholic Church (RC), Islamic, Parents \& Private entrepreneurs all together formed $84.7 \%$ of all Secondary schools. Out of these; $32.2 \%$ were founded by Private Entrepreneurs. This figure increased from by $1.15 \%$ compared to the previous year's (Year 2008) percentage of $32.2 \% 15.8 \%$ were founded by Church of Uganda (COU). This figure slightly reduced by $0.67 \%$ points from $16.47 \%$ the percentage for last year (Year 2008). 14\% of the schools were founded by Parents. This figure decreased in the number of schools created by parents from that of $14.92 \%$ the previous year (2008). $16.8 \%$ were founded by the Roman Catholic Church. This shows an increase of $0.19 \%$ point from the previous year's percentage of $16.61 \%$

Table 16: Secondary - Schools by Founding Body -2009.

| Founding Body | No. of Schools | \% of Schools |
| :--- | ---: | ---: |
| Government | 159 | 5.1 |
| Islamic | 140 | 4.5 |
| COU | 498 | 15.8 |
| Catholic | 528 | 16.8 |
| SDA | 44 | 1.4 |
| Parents | 441 | 14.0 |
| Entrepreneurs | 1014 | 32.2 |
| Not Reported | 325 | 10.3 |
| Grand Totals: | $\mathbf{3 , 1 4 9}$ | $\mathbf{1 0 0}$ |

### 5.1.7 Schools by Boarding Type

According to Figure 19 below, $45 \%$ of schools were day schools, $24 \%$ were partly boarding and partly day schools. In addition, while only $7 \%$ of schools were fully boarding. Over $24 \%$ of the schools' boarding status was unknown.

Figure 19: Secondary Schools by Boarding Type

### 5.1.8 Schools by Level of Secondary Education

Results show that 43\% of the schools were in the Ordinary Level category ("O" Level only), $32 \%$ in both the Ordinary and Advanced Level category ("O \& A" Level) and less than $1 \%$ in the Advanced Level category ("A" Level only). However, $24.3 \%$ of schools did not indicate their level status.

Figure 20: Secondary Schools by Level Status

### 5.2 Enrolment in Secondary Schools

### 5.2.1 Enrolment in Secondary Schools by Grade and Gender

A total enrolment of 1,194,454 students was registered in all secondary schools with $54 \%$ of the enrolment being male students. Analysis on enrolment by grade showed that the bulk of students were in lower classes. There is a sharp drop from senior three to senior four which can be attributed to students deemed unfit to sit for end of O' Level national examinations. Further to note, there is a sharp drop between senior four and senior five which indicates that a considerable number of students are unable to pursue advanced level secondary education.

In general, the percentage distribution of students by class was $24.8 \%$ for S.1, 23.4 for S.2, $21.6 \%$ for S.3, $16.2 \%$ for S.4, 7.3\%for S. 5 and 6.7\%for S.6.

Figure 21: Enrolment in Secondary Schools by Grade and Gender

### 5.2.2 Enrolment in Secondary Schools by Region

A regional analysis on secondary schools' enrolment showed that the central region had the largest share of enrolment with $35.9 \%$ of the total enrolment. This was followed by the eastern region with $24.8 \%$ western with $16.9 \%$ northern with $12.0 \%$ south western with $9.0 \%$ while the north eastern region had the least share of $1.4 \%$ of the total enrolled secondary schools students.

With regard to government owned schools, a regional analysis on enrolment share showed the almost the same pattern with the total enrolment in government aided schools being 550,631 students (contributing $46.1 \%$ of the total enrolment). These constituted a gender imbalance of $56.7 \%$ in favor of male students.

Table 17: Secondary Schools Enrolment in All Schools and Government Aided Schools by Region

|  | All Schools |  |  |  | Government Schools |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Female | Total | \% Share | Male | Female | Total | \% Share |
| Central | 211,455 | 216,891 | 428,346 | $35.9 \%$ | 78,333 | 70,334 | 148,667 | $27.0 \%$ |
| Eastern | 169,717 | 126,427 | 296,144 | $24.8 \%$ | 86,087 | 58,517 | 144,604 | $26.3 \%$ |
| N. Eastern | 9,290 | 7,797 | 17,087 | $1.4 \%$ | 5,827 | 4,942 | 10,769 | $2.0 \%$ |
| Northern | 93,061 | 50,528 | 143,589 | $12.0 \%$ | 51,670 | 26,951 | 78,621 | $14.3 \%$ |
| S. Western | 59,573 | 47,447 | 107,020 | $9.0 \%$ | 31,051 | 22,987 | 54,038 | $9.8 \%$ |
| Western | 104,918 | 97,350 | 202,268 | $16.9 \%$ | 58,968 | 54,964 | 113,932 | $20.7 \%$ |
| National | $\mathbf{6 4 8 , 0 1 4}$ | $\mathbf{5 4 6 , 4 4 0}$ | $\mathbf{1 , 1 9 4 , 4 5 4}$ | $\mathbf{1 0 0 . 0 \%}$ | $\mathbf{3 1 1 , 9 3 6}$ | $\mathbf{2 3 8 , 6 9 5}$ | $\mathbf{5 5 0 , 6 3 1}$ | $\mathbf{1 0 0 . 0 \%}$ |

### 5.3 New Entrants in Senior One

A total of 293,212 new entrants to senior one were registered in the year 2009 constituting $98.9 \%$ of the total senior one student that enrolled during the same year. Despite the official entry age to senior one being 13 years, age distribution of new entrants showed that the highest percentage of new entrants of $27.5 \%$ were aged 14 years, while the officially aged 13 years comprised only $16.8 \%$ Under age entries (that's the 12 year olds) constituted over $3.0 \%$ while over age new entrants were over 80.2\%

Figure 22: Age Distribution of New Entrants to Senior One

### 5.4 Repetition in Secondary Schools

### 5.4.1 Repetition rate by Grade in Secondary Schools

Results show that the overall repetition rate of $2.3 \%$ was registered in secondary schools. However, disaggregation by grade showed that the rate increased across grades within a level with the repetition rate being $1.0 \%$ in S.1, $1.6 \%$ in S.2, $3.0 \%$ in S.3, $4.2 \%$ in S.4, $2.0 \%$ in S. 5 and 3.3\%in S. 6.

Figure 23: Repetition rate by Grade in Secondary Schools

### 5.4.2 Repetition by Region and Gender in Secondary Schools

Analysis on repetition at regional level, indicated that the south western region had the highest rate of repeaters at $2.9 \%$ followed by the eastern region with a rate of $2.6 \%$ while the north eastern region had the lowest rate (1.3\%). Other regions registered rates as follows; northern $(2.3 \%)$, central $(2.2 \%$ ), and western ( $1.6 \%$ ). By gender, the same repetition rate of $2.3 \%$ was registered for both male and female students at national level.

Table 18: Repetition by Region and Gender in Secondary Schools

|  | Repeaters |  |  | Repetition rate |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Region | Male | Female | Total | Male | Female | Total |
| Central | 4,316 | 4,160 | 8,476 | $2.2 \%$ | $2.1 \%$ | $2.2 \%$ |
| Eastern | 3,842 | 3,135 | 6,977 | $2.5 \%$ | $2.8 \%$ | $2.6 \%$ |
| N. Eastern | 117 | 89 | 206 | $1.3 \%$ | $1.3 \%$ | $1.3 \%$ |
| Northern | 1,854 | 1,433 | 3,287 | $2.1 \%$ | $2.8 \%$ | $2.3 \%$ |
| S. Western | 1,528 | 1,143 | 2,671 | $3.0 \%$ | $2.8 \%$ | $2.9 \%$ |
| Western | 1,666 | 1,305 | 2,971 | $1.7 \%$ | $1.4 \%$ | $1.6 \%$ |
| National | 13,323 | 11,265 | 24,588 | $2.3 \%$ | $2.3 \%$ | $2.3 \%$ |

### 5.5 Students with Adequate Sitting and Writing Space

### 5.5.1 Adequate Sitting Space by Region

Results showed that a total of $1,065,632$ students national wide had adequate sitting and writing space, a proportion of $89.2 \%$ of the total enrolment in secondary schools. A regional analysis showed that the central region had the highest proportion of students with adequate sitting space with $90.6 \%$ of the total enrolment, while the northern region had the smallest proportion of $84.9 \%$

Table 19: Proportion of Students with Adequate Sitting and Writing Space in Secondary Schools

| Region | Students with Adequate <br> Seats | Total Enrolment | Proportion (\%) |
| :--- | :--- | :--- | :--- |
| Central | 387,993 | 428,346 | $90.6 \%$ |
| Eastern | 265,564 | 296,144 | $89.7 \%$ |
| N. Eastern | 15,202 | 17,087 | $89.0 \%$ |
| Northern | 121,858 | 143,589 | $84.9 \%$ |
| S. Western | 96,316 | 107,020 | $90.0 \%$ |
| Western | 178,699 | 202,268 | $88.3 \%$ |
| National | $1,065,632$ | $1,194,454$ | $89.2 \%$ |

### 5.5.2 Adequate Sitting Space by Grade

It can be observed that inadequate sitting and writing space was in lower classes were the bulk of enrolment figures was reported. In general the proportion of students with adequate sitting and writing space was $86.9 \%$ for S.1, $87.0 \%$ for S.2, $88.7 \%$ for S.3, $92.3 \%$ for S.4, $94.4 \%$ for S. 5 and $94.0 \%$ for S. 6 .

Figure 24: Proportion of Students with Adequate Sitting and Writing Space by Grade

### 5.6 Students with Disabilities in Secondary Schools

A total of 13,418 students with disabilities were registered in all secondary schools. This indicates that one student out of every 100 students is affected with a given type of impairment listed as; autism, hearing, visual, mental, physical and other multiple handicaps. A regional analysis indicated that the biggest proportion of disabled students were from the northern region with $1.5 \%$ while the smallest proportion was from north eastern region at $0.6 \%$ Analysis by gender showed that females had a bigger proportion of $1.3 \%$ disabled students while males were $1.0 \%$

Table 20: Students with Disabilities in Secondary Schools by Region

|  | Disabled Students |  |  |  |  | Proportion (\%) |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :---: |
| Region | Male | Female | Total | Male | Female | Total |  |
| Central | 2,445 | 2,899 | 5,344 | $1.2 \%$ | $1.3 \%$ | $1.2 \%$ |  |
| Eastern | 1,703 | 1,696 | 3,399 | $1.0 \%$ | $1.3 \%$ | $1.1 \%$ |  |
| N. Eastern | 65 | 41 | 106 | $0.7 \%$ | $0.5 \%$ | $0.6 \%$ |  |
| Northern | 1,131 | 1,001 | 2,132 | $1.2 \%$ | $2.0 \%$ | $1.5 \%$ |  |
| S. Western | 484 | 405 | 889 | $0.8 \%$ | $0.9 \%$ | $0.8 \%$ |  |
| Western | 665 | 883 | 1,548 | $0.6 \%$ | $0.9 \%$ | $0.8 \%$ |  |
| National | 6,493 | 6,925 | 13,418 | $1.0 \%$ | $1.3 \%$ | $1.1 \%$ |  |

### 5.7 Orphans in Secondary Schools

A total of 264,098 students were registered as orphans in all secondary schools during the 2009 Annual Schools Census giving a proportion of $22.1 \%$ This implies that at least 2 students out of ten have lost either a parent or both. A regional analysis showed that the northern region had the biggest proportion of orphaned students with a proportion of $26.3 \%$ which can be attributed to effects of civil wars in the region, while the north eastern region had the smallest proportion of orphaned students of $18.4 \%$ Other regions had proportions as; central $(23.6 \%$, south western $(22.5 \%)$, western ( $21.9 \%$ ), and eastern ( $18.4 \%$ ).

Table 21: Orphans in Secondary Schools by Region

| Region | Male | Female | Total | Male | Female | Total |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Central | 48,976 | 52,307 | 101,283 | $23.2 \%$ | $24.1 \%$ | $23.6 \%$ |
| Eastern | 29,305 | 25,119 | 54,424 | $17.3 \%$ | $19.9 \%$ | $18.4 \%$ |
| N. Eastern | 1,157 | 989 | 2,146 | $12.5 \%$ | $12.7 \%$ | $12.6 \%$ |
| Northern | 21,265 | 16,541 | 37,806 | $22.9 \%$ | $32.7 \%$ | $26.3 \%$ |
| S. Western | 12,634 | 11,467 | 24,101 | $21.2 \%$ | $24.2 \%$ | $22.5 \%$ |
| Western | 21,579 | 22,759 | 44,338 | $20.6 \%$ | $23.4 \%$ | $21.9 \%$ |
| National | 134,916 | 129,182 | 264,098 | $20.8 \%$ | $23.6 \%$ | $22.1 \%$ |

### 5.8 Teachers in Secondary Schools

### 5.8.1 Secondary Teachers Across regions by Gender

A total of 65,045 teachers were registered in the secondary sub-sector for the year 2009. These comprised a female share of only $22.3 \%$ Across regions, it can be observed from table 25 below that central region had the highest percentage share of $37.4 \%$ of the total teachers registered in secondary schools nationally. The eastern region followed with $22.5 \%$ of the teachers while the north eastern region which is the smallest region had the least percentage share of $1.4 \%$ of the teachers.

Table 22: Distribution of Secondary School Teachers across Regions by Gender

| Region | Male | Female | Grand Total | Percentages |
| :--- | ---: | ---: | ---: | ---: |
| Central | 17,783 | 6,574 | 24,357 | $37.4 \%$ |
| Eastern | 11,752 | 2,906 | 14,658 | $22.5 \%$ |
| N. Eastern | 730 | 173 | 903 | $1.4 \%$ |
| Northern | 6,423 | 1,398 | 7,821 | $12.0 \%$ |
| S. Western | 4,552 | 1,068 | 5,620 | $8.6 \%$ |
| Western | 9,332 | 2,354 | 11,686 | $18.0 \%$ |
| National | $\mathbf{5 0 , 5 7 2}$ | $\mathbf{1 4 , 4 7 3}$ | $\mathbf{6 5 , 0 4 5}$ | $\mathbf{1 0 0 . 0}$ |

### 5.8.2 Secondary School Teachers by Qualification

Analysis on teacher qualification in secondary schools showed that the highest percentage of teachers were graduates (degree in secondary education), constituting of over 39.0\% of all teachers. With grade V as the minimum teacher qualification in secondary education, results show that over $86.3 \%$ of the teachers had the minimum qualification.

Figure 25: Teachers in Secondary Schools by Qualification

### 6.0 POST PRIMARY SUB-SECTOR STATISTICS (P. 7 + S. 4 ENROLLING BTVET INSTITUTIONS \& PTCS)

A number of government-aided, private and community based institutions that offer education at post primary level exist in Uganda. These include institutions that offer Business, Technical and Vocational training (BTVET) as well as Primary Teacher Colleges (PTCs). Education in this sub-sector has been boosted by the introduction of Universal Post Primary education and training (UPPET) in the year 2007, where some institutions have partnered with the government in driving this program (UPPET) to a success.

### 6.1 Post primary Schools information.

### 6.1.1 Schools by Ownership

According to figure 26 below, the largest percentage of schools was government owned ( $89 \%$ ). There was a percentage reduction in the share of private schools from $19 \%$ in 2008 to $7 \%$ in 2009, while community owned schools had the least percentage share of $4 \%$

Figure 26: Post Primary Schools by Ownership

### 6.1.2 Schools by Funding Source

Results show that 79\% of the schools were receiving government funding, 9\% received private funding, and $11 \%$ were partially government aided while a small percentage of $1 \%$ of the schools had their funding status unknown.

Figure 27: Post Primary Schools by Funding Source

### 6.1.3 Schools by Founding Body

Government founded schools had the highest percentage of over $41.7 \%$ followed by catholic founded schools ( $22.3 \%$ ). $18.7 \%$ were founded by the Church of Uganda (COU), $7.9 \%$ by parents, $4.3 \%$ were founded by Islamic institutions, while the least percentage of $0.7 \%$ were founded by entrepreneurs. The status of founding bodies for the remaining 4.3\% of the schools was unknown.

Figure 28: Post Primary Schools by Founding Body

### 6.1.4 Schools by Location

Results from the 2009 Annual Schools Census (ASC) shows that over 43\% of the post primary schools were located in rural areas, $22 \%$ were in peri-urban areas while $19 \%$ of them were located in urban areas. $15 \%$ of the schools had the status of their location unknown.

Figure 29: Post Primary Schools by Location

### 6.1.5 Post Primary Schools by Registration

Figure 30 below shows that over $82.0 \%$ of the schools were registered, $5.0 \%$ were only licensed by the education ministry whereas $3.6 \%$ were neither registered nor licensed. $9.4 \%$ schools had their registration status with the education ministry unknown.

Figure 30: Post Primary Schools by Registration Status

### 6.1.6 Schools Distance from Education Office

Results in table 23 below show that the largest percentage (43.1\%) of the schools is located within a distance of less than 10 km from the DEO's office. However, it can be noted that over $52.5 \%$ of the schools were located within a range of over 10 km from the DEO's main office. This implies that the district education office needs to be well facilitated for it to carry out effective inspection due to the sizeable number of schools that are far located. A small percentage of $3.6 \%$ schools' distance from the DEO's main office was unknown.

Table 23: Schools by Distance from DEO's Main Office

| Distance from DEO's Main Office | Schools | \% |
| :--- | ---: | ---: |
| Below 10 km | 61 | 43.9 |
| $10-20 \mathrm{~km}$ | 26 | 18.7 |
| $20.1-30 \mathrm{~km}$ | 23 | 16.5 |
| $30.1-40 \mathrm{~km}$ | 11 | 7.9 |
| $40.1-50 \mathrm{~km}$ | 4 | 2.9 |
| Above 50 km | 9 | 6.5 |
| Unknown | 5 | 3.6 |
| Grand Total | $\mathbf{1 3 9}$ | $\mathbf{1 0 0 . 0}$ |

### 6.1.7 Distance from Similar School

Considering distance between schools of similar levels, only $30.2 \%$ of the schools were within a distance of less than a kilometer from their neighboring schools, contrary to the $52.6 \%$ who were within a distance of more than a kilometer. The estimates of school distance from nearest similar school couldn't be established for over $17.3 \%$ of the post primary institutions.

Table 24: Post Schools' Distance from Similar School

| Distance from Similar School | Schools | \% |
| :--- | ---: | ---: |
| Below 1 km | 42 | 30.2 |
| $1-2 \mathrm{~km}$ | 30 | 21.6 |
| $2.1-3 \mathrm{~km}$ | 9 | 6.5 |
| $3.1-4 \mathrm{~km}$ | 8 | 5.8 |
| $4.1-5 \mathrm{~km}$ | 6 | 4.3 |
| Above 5 km | 20 | 14.4 |
| Unknown | 24 | 17.3 |
| Grand Total | $\mathbf{1 3 9}$ | $\mathbf{1 0 0 . 0}$ |

### 6.1.8 Schools by Boarding Type

Out of the 139 institutions that responded to the Census exercise, $71.2 \%$ were operating as fully boarding, $10.1 \%$ were partly boarding, $9.4 \%$ were day schools, whereas the status of the remaining $9.4 \%$ institutions was unknown.

Figure 31: Post Primary Schools by Boarding Type

### 6.2 Enrolments

### 6.2.1 Student Enrolment in All schools

A total enrolment of 38,928 was registered in all post primary institutions with a gender parity of $70: 30$. This indicates that female enrolment is still lower in primary enrolling BTVETs and PTCs. A regional analysis shows that the Eastern region had the highest share of enrolment of over 10,113 students ( $26 \%$ ) followed by the Northern region with 9,405 students $(24 \%$, while the North Eastern region registered the least enrolment of only 1,044 students (3\%).

Table 25: Pupil Enrolment in All Post Primary Schools by Region, Academic Year and Gender

| Region | Gender | Intake Capacity | Year 1 | Year 2 | Year 3 | Year 4 | Grand Total |
| :--- | :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Central | Male | 631 | 2,737 | 2,594 | 499 | 123 | 5,953 |

### 6.2.2 Student Enrolment in Government Schools

Census results for the year 2009 show that a total of 36,240 students were enrolled in government aided institutions, with a gender imbalance of $71 \%$ in favor of male students. Enrolment in government aided institutions took a share of over $93 \%$ of the entire enrolment. A regional distribution of enrolment in this case had the Northern region with the highest share of over $25 \%$ followed by the Central region (24\%) with the North Eastern region still having the least share of only $2 \%$

Table 26: Pupil Enrolment in Government-Owned Post Primary Schools by Region, Academic Year and Gender

|  | Region | Gender | Intake <br> Capacity | Year 1 | Year 2 | Year 3 | Year 4 |

### 6.2.3 Students Age distribution in Post Primary Schools

Considering the display of results in Figure 22 below, the distribution of student's ages in post primary institutions takes more of a normal distribution over the age under consideration, with the majority of students aged 20 years of age at $17.5 \%$ However considering what would be the official schooling age range in these institutions (i.e. the after P. $7 \& S .4$ enrolling) which is 13 to 19 years, the results show that this age range takes a minimal percentage of $41.1 \%$ overage takes $58.5 \%$ whereas the least $0.4 \%$ of the student population are underage.

Figure 32: Age distribution of students in Post Primary Schools

### 6.3 Teachers in Post Primary Schools

### 6.3.1 Teacher Education Levels

Distribution of teachers by education levels indicated that the highest percentage of teachers (39.3\%) were certificate/diploma holders at $0^{\prime}$ level, followed by certificate/ diploma holders at $\mathrm{A}^{\prime}$ level ( $17.4 \%$ ), while graduates composed of $16.9 \%$ of the teachers. Taking certificate/ Diploma attained after $O$ level as the minimum acceptable teacher education level, results show that $78.9 \%$ of the teachers had attained the minimum, while over $5.7 \%$ of the teachers' education level was unknown.

Table 27: Teacher Educational Levels Attained

| Education Level | Males | Females | Total |
| :--- | ---: | ---: | ---: |
| Primary | 100 | 30 | 130 |
| Primary +Cert. / Dip. | 227 | 64 | 291 |
| O Level | 36 | 31 | 67 |
| O Level +Cert. / Dip. | 1,021 | 225 | 1,246 |
| A Level | 61 | 18 | 79 |
| A Level +Cert. / Dip. | 453 | 100 | 553 |
| Graduate | 388 | 148 | 536 |
| Post Graduate Diploma | 25 | 5 | 30 |
| Masters Degree | 39 | 17 | 56 |
| Doctorate | 1 |  | 1 |
| Not stated | 126 | 55 | 181 |
| Total | $\mathbf{2 , 4 7 7}$ | $\mathbf{6 9 3}$ | $\mathbf{3 , 1 7 0}$ |

### 6.3.2 Teachers by Gender and Student Teacher Ratio

A total of 3,170 teachers were registered nationally out of which $22 \%$ were female teachers. A regional distribution of teachers indicated that the Eastern region had the highest percentage of teachers $(26.6 \%)$, followed by the central region ( $23.4 \%$ whereas the North Eastern region had the least percentage share of teachers (3.0\%).

Student Teacher Ratio (STR) which gives an indication of contact between students and teachers in a classroom was calculated and results tabulated as shown in Table 4.5 below. The lower the ST the higher the chances of contact between teachers and students and therefore the better. Nationally STR of 12 was realized, implying that one teacher is available for every twelve students in a class.

Table 28: Teachers \& Student Teacher Ratio (STR) by Region

|  | Teachers |  |  |  |  | Student <br> Enrolment |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Fem |  |  |  |  |
| Central | 533 | 210 | Total | \% by region |  |  |
| East | 663 | 180 | 843 | 23.4 | 8,703 | 12 |
| N. East | 75 | 20 | 95 | 26.6 | 10,113 | 12 |
| North | 544 | 122 | 666 | 3.0 | 1,044 | 11 |
| S. West | 120 | 31 | 151 | 21.0 | 9,405 | 14 |
| West | 542 | 130 | 672 | 4.8 | 2,275 | 15 |
| National | $\mathbf{2 , 4 7 7}$ | $\mathbf{6 9 3}$ | $\mathbf{3 , 1 7 0}$ | $\mathbf{1 0 0 . 0}$ | $\mathbf{3 8 , 9 2 8}$ | $\mathbf{1 1 2}$ |

At regional level there was not much variation in STR with the lowest registered in the North Eastern and Western regions at 11 while the highest was in the South Western region (15). However, at district level there was considerable variation in STR from 4 to 34.

### 6.3.3 Teacher Departures and Causes

Analysis on Teacher departures shows that majority departures were within the sub-sector with over $49.5 \%$ of departure cases registered as teacher transfers to other government aided institutions. Possible complete teacher leakages from the sub-sector are alarming at over $38.0 \%$ of the entire teacher departures registered. This is evidenced in retirements/ deaths rated at $15.8 \%$ departures without notice at $13.5 \%$ transfers to nonteaching posts at $3.3 \%$ and departures based on other reasons at $5.3 \%$ Departures attributed to further training were rated at $12.5 \%$

Figure 33: Teacher Departures by Reason

### 6.4 Water Sources in Post Primary Schools

Analysis on school water usage indicate that majority of schools (35.8\%) of those that responded, used piped water as the main water source, followed by those that used boreholes at $32.1 \%$ whereas lakes/ rivers had the least usage by schools at $2.7 \%$ other sources included well/ spring (rated at $15.0 \%$ usage) and Rain water tanks (11.8\%) while over $1.1 \%$ of the schools didn't indicate their main sources of water.

Figure 34: Main School Water Sources in Post Primary Schools

### 7.0 NON FORMAL SUB-SECTOR STATISTICS

### 7.1 School Particulars

The Government of Uganda is committed to providing universal primary education to children within the formal and informal education system. Non formal educational programs were initiated to provide education to those hardest to reach, the poverty stricken and unstable home environments, rural areas where schools are inaccessible, girls, and those who perceive few benefits in attending school. Among other programs offering non formal education in Uganda are; Complementary Opportunity for Primary Education (COPE), Alternative Basic Education for Karamoja (ABEK), Basic Education for Urban Poverty Areas (BEUPA) and ChildCentered Alternative, Non-Formal Community-Based Education (CHANCE).

### 7.1.1 Schools Ownership Status

Results from the 2009 Annual Schools Census show that out of the 359 non formal training schools covered, over $91 \%$ were government owned while community founded schools comprised $8 \%$ and the least percentage (1\%) were owned by NGOs.

Figure 35: Non Formal Schools by Ownership Status

### 7.1.2 Schools by Founding Body

Their was a slight percentage share difference in the schools founded by the community and the government, with the former having a higher lot of $37 \%$ while government founded share being $36 \%$ Centers founded by NGOs comprised $26 \%$ while the remaining $1 \%$ of the centers was founded by other non stated founding bodies.

Figure 36: Non Formal Schools by Founding Body

### 7.1.3 Schools by Funding Source

With regard to school funding, the highest percentage of non formal learning centers were being funded by the government (over $92 \%$ ). This is inline with government efforts to avail universal education in all the government owned non formal learning centers. NGO funded schools comprised $6 \%$ of the total while community funded schools were $1 \%$ with the remaining $1 \%$ of the schools' funding status unknown.

Figure 37: Non Formal Schools by Funding Source

### 7.2 Pupil Enrolment

### 7.2.1 Enrolment by Gender and Study Groups

Results from the 2009 Annual Schools Census indicate that a total of 33,601 learners were registered in all non formal schools, with a gender imbalance of $54.6 \%$ in favor of girls. The bulk of learners were noticed in lower learning groups, and this took a declining pattern over the study groups as observed in Figure 5.4 below.

Figure 38: Enrolment Pattern in Non-Formal Institutions by Gender and Study Groups

### 7.2.2 Age Distribution in Non Formal Sector

Unlike the other formal education subsectors (e.g. primary, secondary and tertiary) with official entry ages in the first grade of the education cycle, there are no age specifications in non-formal education. However, analysis on pupil enrolment by age indicated that the bulk of enrolment reduced with age, in that the largest percentage of pupils (43.4\%) were aged 10 years and below, $15.9 \%$ were 11 year olds, $12.8 \%$ were 12 years, $9.1 \%$ were 13 years, $7.4 \%$ were 14 years while the remaining $5.8 \%$ were 15 years and over.

Figure 39: Percentage Distribution of Age in Non Formal Sub sector

### 7.3 Repetition in the Non Formal Sub sector

Like the enrolment pattern, the absolute number of repeaters was higher in lower study groups and had a declining pattern over the study groups. However, the repetition rate did not have a regular pattern, being highest in the final group at $15.6 \%$ and lowest in group 4 at $7.7 \%$ as illustrated in Figure 40 below. The overall repetition rate was 11.6\%in 2009.

Figure 40: Repetition Rates in Non Formal Education by Study Groups

### 7.4 Dropouts

Census results show that a total of 4,745 learners in non-formal education had dropped out by the year 2009. Most of the dropouts were due to lack of interest in the education system with over $27.6 \%$ of the dropouts admitting so, $15.5 \%$ of the dropouts had been hindered by family responsibilities, $11.5 \%$ were due to marriages, $10.0 \%$ were due to occupation by petty trading, $7.2 \%$ were due to pregnancy while illnesses contributed to $6.1 \%$ of the dropout cases. Cases of dismissal due to obedience and fees limitation contributed to minimal percentages of $0.6 \%$ and $0.9 \%$ respectively whereas the remaining percentage of dropouts had other reasons other than the listed reasons.

Table 29: Dropouts by Cause in Non Formal Sub sector

| Reason for Dropping Out | Pupils | Percentage |
| :--- | ---: | ---: |
| Lack of Interest | 1,309 | $27.6 \%$ |
| Pregnancy | 344 | $7.2 \%$ |
| Marriage | 546 | $11.5 \%$ |
| Fees (Unable to pay) | 41 | $0.9 \%$ |
| J obs (Working/ Petty Trading) | 476 | $10.0 \%$ |
| Illness | 290 | $6.1 \%$ |
| Family responsibilities | 736 | $15.5 \%$ |
| Dismissed/ Disobedience | 30 | $0.6 \%$ |
| Other Reasons | 973 | $20.5 \%$ |
| Grand Total | $\mathbf{4 , 7 4 5}$ | $\mathbf{1 0 0 . 0 \%}$ |

### 7.5 Teachers/Instructors

### 7.5.1 Teachers by Qualifications

Out of the 673 teachers registered in non formal schools, the largest percentage of over $55.7 \%$ had their qualification status unknown. However, results show that over $24.7 \%$ of the teachers were certificate holders, followed by diploma holders at 3.9\% Grade V instructors comprised $2.7 \% 1.5 \%$ were graduates while the least percentage of only $0.1 \%$ were post graduates.

Figure 41: Teachers/Instructors by Qualifications in Non Formal Schools

### 7.5.2 Teachers and Pupil Teacher Ratio

Results on teachers show that the 673 teachers registered in all non formal schools gave a pupil teacher ratio of 50 . This implies that on average, every 50 learners were being attended to by one instructor. However, there were wide variations in PTR at district level with the lowest PTR (most advantaged) being 20 in Nakasongola district and the highest (worst) being 149 registered in Kotido district. Other worse off districts with a PTR of over 70 pupils per teacher included Kaliro district (139) were only one teacher was registered, kaabong (115), Masaka (96), Arua (72) and Maracha-Terego (70).

### 7.6 Sanitation

### 7.6.1 Accessibility to Toilet/Latrine Stances

Analysis on accessibility to toilet facilities indicated that on average 53 learners were able to have access to a toilet/latrine stance at national level. However, accessibility varied greatly across districts with Kalangala district being the most advantaged with 1 pupil/learner per stance while Kotido district had the worst position of 395 pupils/learners per stance. Other districts that had a high ratio of learners to the available stances (of over 100) were Moroto (148) and Kaabong (125).

### 7.6.2 Water Sources

With regard to main water sources accessed by schools/learning centers, the highest percentage of $54.1 \%$ was boreholes. These were followed by wells/ springs at $16.0 \%$ piped water usage was rated at $12.3 \%$ lakes/ rivers at $10.7 \%$ with rain water rating lowest at 4.0\%

Figure 42: Percentage distribution of Main Water Sources

### 8.0 COMMENTS ON KEY INDICATORS EDUCATION STATISTICS

### 8.1 PRIMARY SCHOOLS

### 8.1.1 QUALITY INDICATORS

Quality indicators include Pupil Teacher Ratio (PTR), Pupil Classroom Ratio (PCR) and Pupil Textbook Ratio (PBR). Efficiency indicators provide a picture on the learning/teaching classroom environment in terms of overcrowding, pupil-teacher contact, and availability of learning/teaching materials. For all these indicators, a lower value leads to reduced levels of overcrowding or reduced competition for classroom resources and implies better learning conditions.

Table 30: PTR \& PCR by Region in Primary Schools

|  | PTR |  | PCR |  |
| :---: | :---: | :---: | :---: | :---: |
| Region | All Schools | Gov't Aided Schools | All Schools | Gov't Aided Schools |
| Central | 39 | 50 | 54 | 68 |
| East | 58 | 64 | 84 | 91 |
| N. East | 49 | 55 | 64 | 71 |
| North | 64 | 65 | 93 | 95 |
| S. West | 51 | 60 | 68 | 77 |
| West | 40 | 45 | 52 | 59 |
| Grand Total | $\mathbf{4 9}$ | $\mathbf{5 7}$ | $\mathbf{6 8}$ | $\mathbf{7 8}$ |

### 8.1.1.1 Pupil Teacher Ratio (PTR) - all Primary schools

PTR gives an indication of contact between pupils and teachers in a classroom. If it is lower, then there are high chances of contact between a teacher and pupils and teachers will have enough time to check homework and class work. In other words the lower the PTR the better. Although the targeted PTR for 2009 was 49 in all schools, 57 was the value actually realized for Government schools and 49 for all schools.

## This means that although there maybe variations among individual schools and districts, nationally the government has hit the recommended ideal pupil teacher ratio of 1:49 overall and this puts a great landmark on the education attainments.

At regional level, the central region had the lowest PTR of 39 in all schools, followed by the Western (40) whereas the Northern region was the worst performing with a PTR of 64. At district level PTR varied greatly from 27 to 112 with Kampala (27), Wakiso (28), Kalangala (32), Mbarara (33), Rukungiri (34), Lyantonde, Mityana, Nakasongola and Ibanda (36) having the lowest (best) values whereas districts of Kaabong (93) and Kotido (112) at the bottom of the list. Kalangala district composed of islands in Lake Victoria had a relatively low PTR because it has the lowest population and enrolment. It's also true that Rakai district with Pupil Teacher Ratio of 41 was among the best districts because since

1986 it was used as a pilot district for many projects (i.e. a lots of donors and NGOs presence), which created an enabling school environment for both pupils and teachers.

Mbarara (33), Wakiso (28) and Kampala (27) also have good PTR values because they are predominantly urban or peri-urban places and tend to attract and retain more teachers compared to other districts.

Kaabong (93) and Pader (76) are new districts and became operational after 2004 and were probably among the ten worst performing districts perhaps because they inherited the less developed and harder to reach areas of their parent districts. However, of late they have registered improvement in their PTR Value standings as compared to the previous year 2008. This may be attributed to teacher incentives like the hard to reach allowance given to teachers in such areas. Districts of Kitgum (74), and Pader (76) were among the ten worst districts because of insecurity caused by prolonged rebel activities in the northern region and due to the fact that teachers do not want to be deployed in those districts. Nakapiripirit (70) and Kotido (112) also a fairly new district ranked among the last in respect of PTR due to insecurity caused by the Karamajong warriors.

### 8.1.1.2 Pupil to Classroom Ratio (PCR) - Gov't Primary schools

In 2009 PCR of 78 was actually realized in Gov't schools and 68 in all schools. At district level, PCR varied from 28 to 135. Kalangala district had the lowest (best) PCR of 28 and it was the only district whose PCR was less than 30. Mbarara (47) and Rukungiri (48) were the other districts with a PCR less than 50 . Amongst the worst performing districts were Kaabong and Koboko (127), Maracha-Terego (135).

### 8.1.2 ACCESS INDICATORS

These measure a proportion of pupils attending school compared to school going children in the population. They include Gross Enrolment Ratio (GER), Net Enrolment Ratio (NER), Gross Intake Ratio (GIR), and Net Intake ration (NIR). Because of population dynamics, they are usually very difficult to determine accurately. In case of Uganda they have been on the high side due to a combination of problems in enrolment and low population projection estimates. However, 2002-population census final results released were more precise and were used to compute the access indicators for 2009. Nationally the GER was 135.6, NER at 107.9, GIR at 167.5 and NIR at 73.1

### 8.1.2.1 Gross Enrolment Ratio (GER)

The GER at primary level in all schools was 135.6, regardless of age, a proportion of all pupils in primary schools (P1-P7) to the total numbers of children aged 6-12 years in the population. This implies that there were children who were outside the 6-12 age bracket in school. This was possible because some kids joined primary one when they are not yet 6 years old and others although still in primary school, were actually more than 12 years old because they repeated some classes or joined primary one when they were older than 6 years. Considering boys and girls separately, the GER for boys (136.0\%) was slightly higher than that of girls ( $135.2 \%$ i.e. there were more boys attending primary schools compared to girls aged 6-12 in the population than were girls.

At lower levels (districts) GER varied from $45.5 \%$ to $231.43 \%$ Kotido had the lowest ( $45.5 \%$ ) value followed by Moroto at $47.5 \%$ then Moyo at $50.8 \%$ whereas Abim had the highest GER of 231.4.

### 8.1.2.2 Gross Intake Ratio (GIR)

The GIR for primary schools is a proportion of children in primary one to the total number of children aged 6 years in the population. GIR in all schools was at $167.5 \%$ Since the percentage was more than $100 \%$ it shows there were some kids that joined primary one when they were less than 6 years old and/ or more than 6 years. The GIR fluctuated between $64.4 \%$ (Moyo) and $334.6 \%$ (Sembabule) districts.

### 8.1.2.3 Net Intake Ratio (NIR)

NIR is the proportion of new entrants in Primary one aged six years to the total number of children aged six years in the population. NIR in all schools was at $73.1 \%$ (with $71.4 \%$ for male and $74.9 \%$ female). The value of NIR being less than 100 can as well be attributed to existence of underage and overage new entrants in the primary sector as well as nonschooling children in the population who have reached the official primary entry age. With the compulsory education for all children policy underway, NIR should be expected to clinch to the desired 100\%

At district level NIR varied from 14.9\% (Adjumani district) to 141.8 (Bukwo district). Anomalies in some districts' NIR (that's NIR exceeding 100) can be attributed to cross border migrations (i.e. pupils from neighbouring countries) as well as pupil transfers across districts.

### 8.1.3 SANITATION IN PRIMARY SCHOOLS

### 8.1.3.1 Pupil - Toilet Stances Ratio

Analysis on pupil accessibility to toilet facilities shows that on average a toilet stance could be accessed by 42 pupils at national level. At regional level, the south western region had the best pupil stance ratio at 33 followed by the central region at 35 with the eastern region being the least advantaged with a pupil stance ratio of 53. However, at district level there was significant variation in pupil stance ratio ranging from 15 (Kalangala district) to 92 (Kaabong District).

Table 31: Pupil Stance Ratio at Regional Level

| Region | Toilet Stances | Enrolment | Stance Ratio |
| :--- | :--- | :--- | :--- |
| Central | 55,104 | $1,903,588$ | 35 |
| East | 44,282 | $2,328,700$ | 53 |
| N. East | 3,087 | 138,739 | 45 |
| North | 36,669 | $1,768,036$ | 48 |
| S. West | 21,594 | 877,220 | 41 |
| West | 38,770 | $1,281,497$ | 33 |
| Grand Total | $\mathbf{1 9 9 , 5 0 6}$ | $\mathbf{8 , 2 9 7 , 7 8 0}$ | $\mathbf{4 2}$ |

### 8.2 SECONDARY SCHOOLS

### 8.2.1 QUALITY INDICATORS IN SECONDARY SCHOOLS

Quality indicators include Student Teacher Ratio (STR), Student Classroom Ratio (SCR) and Student Textbook Ratio (SBR). Efficiency indicators provide a picture on the learning/teaching classroom environment in terms of overcrowding, Student-teacher contact, and availability of learning/teaching materials. For all these indicators, a lower value leads to reduced levels of overcrowding or reduced competition for classroom resources and implies better learning conditions.

Table 32: Student Teacher Ratio in All Schools and Government Schools by Region

|  | All Schools |  |  | Government Schools |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Reaion | Enrolment | Teachers | STR | Enrolment | Teachers | STR |
| Central | 428,346 | 24,357 | 18 | 148,667 | 7,231 | 21 |
| Eastern | 296,144 | 14,658 | 20 | 144,604 | 6,090 | 24 |
| N. Eastern | 17,087 | 903 | 19 | 10,769 | 506 | 21 |
| Northern | 143,589 | 7,821 | 18 | 78,621 | 4,019 | 20 |
| S. Western | 107,020 | 5,620 | 19 | 54,038 | 2,398 | 23 |
| Western | 202,268 | 11,686 | 17 | 113,932 | 6,152 | 19 |
| National | $1,194,454$ | 65,045 | 18 | 550,631 | 26,396 | 21 |

### 8.2.1.1 Student Teacher Ratio (STR)

STR gives an indication of contact between students and teachers in a classroom. If it is lower, then there are high chances of contact between a teacher and students and teachers will have enough time to check homework and class work. In other words the lower the STR the better. An STR of 18 students per teacher was realized in all schools, with the eastern region having the highest STR of 20 students per teacher, whereas the western region had the lowest STR of 17. There was no much variation across regions with other regions being; north eastern (19), south western (19), central (18) and northern (18). However, variation across districts was significant ranging from 23 to 111.

In government schools however, higher values of STR were registered with the overall student teacher ratio being 21.

### 8.2.1.2 Student to Classroom Ratio (PCR)

In 2009 SCR of 39 was actually realized in Gov't schools and 35 in all schools. There was no much variation in SCR across regions with the eastern region having the highest SCR of 37 students per classroom. At district level SCR varied from 11 (Dokolo district) to 86 (Kotido district).

Table 33: SCR in All Schools and Government Schools across Regions

|  | All Schools |  |  | Government Schools |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Enrolment | Classrooms | SCR | Enrolment | Classrooms | SCR |
| Central | 428,346 | 12,146 | 35 | 148,667 | 3,503 | 42 |
| Eastern | 296,144 | 8,035 | 37 | 144,604 | 3,409 | 42 |
| N. Eastern | 17,087 | 541 | 32 | 10,769 | 264 | 41 |
| Northern | 143,589 | 4,406 | 33 | 78,621 | 2,226 | 35 |
| S. Western | 107,020 | 3,095 | 35 | 54,038 | 1,352 | 40 |
| Western | 202,268 | 6,272 | 32 | 113,932 | 3,304 | 34 |
| National | $1,194,454$ | 34,495 | 35 | 550,631 | 14,058 | 39 |

### 8.2.3 ACCESS INDICATORS IN SECONDARY SCHOOLS

These measure a proportion of pupils attending school compared to school going children in the population. They include Gross Enrolment Ratio (GER), Net Enrolment Ratio (NER), Gross Intake Ratio (GIR), and Net Intake ration (NIR). Because of population dynamics, they are usually very difficult to determine accurately. In case of Uganda they have been on the high side due to a combination of problems in enrolment and low population projection estimates. However, 2002-population census final results released were more precise and were used to compute the access indicators for 2009. Nationally the GER was 28.2, NER at 23.8, GIR at 38.4 and NIR at 6.5

### 8.2.3.1 Gross Enrolment Ratio (GER)

The GER at secondary level in all schools was 28.2, regardless of age, a proportion of all students in secondary schools (S.1-S.6) to the total population aged 13-19 years. This figure implies that many children who are of secondary school going age are actually out of school or some are in other post primary institutions. Considering boys and girls separately, the GER for boys $31.2 \%$ was slightly higher than that of girls $25.4 \%$ i.e. there were more boys attending secondary schools compared to girls aged 13-19 years in the population than were girls.

At lower levels (districts) GER varied from 3.7 (Nakapiripirit district) to 56.7\% (Mbale district).

### 8.2.3.2 Net Enrolment Ratio (NER)

The Net enrolment ratio for all secondary schools was $23.8 \%$ This indicator is age specific and measures the proportion of students aged 13-19 years to the total population of the same age range. The same figure implies that there are only $23.8 \%$ students in school of the total population that would officially be in school at secondary level. Gender based figures showed that the NER figure for boys $25.1 \%$ was slightly higher than that of girls $21.5 \%$ At district level, NER like GER was lowest in Nakapiripirit (2.9\%) and highest in Mbale (44.7\%)

### 8.2.3.3 Gross Intake Ratio (GIR)

The GIR for secondary schools is a proportion of children in senior one to the total number of children aged 13 years in the population. GIR in all schools was at $38.45 \%$ Since the percentage was less than $100 \%$ it implies that the biggest percentage of school age going population is actually not in school. GIR fluctuated between $4.8 \%$ (Kaabong district) and 80.8\%(Bukwo).

### 8.2.3.4 Net Intake Ratio (NIR)

NIR is the proportion of new entrants in senior one aged 13 years to the total number of children aged 13 years in the population. NIR in all schools was at $6.5 \%$ (with $6.0 \%$ for male and $6.9 \%$ female). The value of NIR being less than 100 can be attributed to nonschooling children in the population who have reached the official secondary entry age, and to a less extent existence of underage and overage new entrants in the secondary sub sector. At district level NIR varied from 0.1\% (Kaabong district) to 17.7\% (Luwero district).

### 9.0 SPORTS

### 9.1 Sports in Primary Schools

### 9.1.1 Sports Equipment in Primary Schools

Data on sports equipment available in schools as reported by head teachers was captured and a summary analysis by region presented in Table _ below. However, there is need for more equipment as expressed by the school heads.

Table 34: Available and Needed Sports Equipment in Primary Schools by Region

|  | No. Available |  |  |  | No. Needed |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Football | Netballs | Rackets | Others | Football | Netballs | Rackets | Others |
| Central | 6,646 | 4,289 | 209 | 5,791 | 11,767 | 9,694 | 1,358 | 20,690 |

| National | $\mathbf{1 , 5 0 4}$ | $\mathbf{8 3 8}$ | $\mathbf{3 1}$ | $\mathbf{1 , 2 5 0}$ | $\mathbf{3 , 6 2 3}$ |

### 9.1.3 Conditions of Sporting Facilities in Primary Schools

Analysis on the condition of sporting facilities in primary schools was done, and from the results as illustrated in figure _ below, it can be observed that there were a considerable proportion of facilities in poor condition. For instance, $31.7 \%$ of the fields, $36.1 \%$ (courts), $14.7 \%$ (swimming pools), and $31.8 \%$ (other sporting facilities) were considered to be in poor conditions and therefore needed repair.

Figure 43: Sporting Facilities by Condition in Primary Schools

### 9.1.4 Conditions of Sporting Facilities for Special Needs Pupils

Results as illustrated in figure 44 below show that the condition of sporting facilities for special needs pupils was worse in that larger proportion of facilities in poor condition were registered. In this case; $47.1 \%$ of the fields, $45.4 \%$ of the courts, $94.3 \%$ of the swimming pools and over $43.0 \%$ of other sporting facilities were considered to be in poor condition.

Figure 44: Condition of Sporting facilities for Special Needs Pupils

### 9.1.5 Pupil Participation in Extra-Curricular Activities in Primary Schools

Participation of pupils in extra curricula activities was analyzed and from the results, netball had the highest percentage of participating pupils with $51 \%$ The percentage share of participating pupils for other activities was; athletics ( $17 \%$ ), music, dance and drama $(9 \%)$, football and debates shared $7 \%$ volleyball (4\%), scouting and guiding (3\%) while other sporting activities had $2 \%$ of the participants.

Figure 45: Distribution of Pupil Participation in Extra Curricula Activities

### 9.2 Sports in Secondary Schools

### 9.2.1 Sports Equipment in Secondary Schools

Data on sports equipment available in secondary schools as reported by head teachers was captured and a summary analysis by region presented in Table 36 below. However, there is need for more equipment as expressed by the school heads.

Table 36: Sports Equipment available and Needed in Secondary Schools by Region

|  | No. Available |  |  |  | No. Needed |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Football | Netballs | Rackets | Others | Football | Netballs | Rackets | Others |
| Central | 1,741 | 1,044 | 83 | 2,605 | 3,187 | 2,225 | 235 | 7,760 |
| East | 1,131 | 732 | 38 | 1,737 | 2,405 | 1,667 | 298 | 4,569 |
| N. East | 60 | 48 | 3 | 82 | 144 | 113 | 13 | 321 |
| North | 761 | 448 | 6 | 1,536 | 1,633 | 1,108 | 43 | 3,930 |
| S. West | 449 | 319 | 27 | 550 | 814 | 624 | 54 | 1,625 |
| West | 900 | 578 | 64 | 1,329 | 1,560 | 1,140 | 148 | 3,103 |
| National | $\mathbf{5 , 0 4 2}$ | $\mathbf{3 , 1 6 9}$ | $\mathbf{2 2 1}$ | $\mathbf{7 , 8 3 9}$ | $\mathbf{9 , 7 4 3}$ | $\mathbf{6 , 8 7 7}$ | $\mathbf{7 9 1}$ | $\mathbf{2 1 , 3 0 8}$ |

### 9.2.2 Sports Equipment for Special Needs Students

Table 37 below shows sports equipment available for special needs students in secondary schools.

Table 37: Sports Equipment for Special Needs Students

| Region | Football | Netballs | Rackets | Others | Grand Total |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Central | 66 | 49 | 1 | 77 | 193 |
| East | 53 | 35 | 0 | 51 | 139 |
| N. East | 3 | 6 | 0 |  | 9 |
| North | 29 | 15 | 0 | 37 | 81 |
| S. West | 10 | 2 | 0 | 12 | 24 |

| National | $\mathbf{2 1 0}$ | $\mathbf{1 3 3}$ | $\mathbf{3}$ | $\mathbf{2 2 1}$ | $\mathbf{5 6 7}$ |

### 9.2.3 Condition of Sports facilities

Analysis on the condition of sporting facilities in secondary schools showed that a considerable proportion of facilities were in poor condition. For instance, $26.6 \%$ of the fields, $28.2 \%$ (courts), $21.7 \%$ (swimming pools), and $30.0 \%$ (other sporting facilities) were considered to be in poor conditions and therefore needed repair.

Figure 46: Sports facilities and Their Condition in Secondary Schools

### 9.2.4 Condition of Sports facilities for Special Needs Students

Figure 47 below shows the number of sporting facilities for special needs students by their condition as rated by the school heads. However, considering the proportion of facilities in poor condition, a considerable percentage was still registered for special needs students with $45.8 \%$ of the fields, $38.4 \%$ of the courts, $25.0 \%$ of the swimming pools, and $48.1 \%$ of other sporting facilities being rated to be in poor condition.

Figure 47: Condition of Sports facilities for Special Needs Students

### 9.2.5 Student Participation in Extra-Curricular Activities in Secondary Schools

Participation of students in extra curricula activities was analyzed and from the results the same pattern of distribution as in primary schools was observed for secondary schools with netball having the highest percentage of participating students with $51.4 \%$ The percentage share of participating students for other activities was; athletics (16.3\%), music, dance and drama ( $8.9 \%$ ), football ( $6.9 \%$, debates ( $7.4 \%$ ), volleyball ( $4.0 \%$ ), scouting and guiding ( $2.7 \%$ ) while other sporting activities had $1.8 \%$ of the participants.

Figure 48: Distribution of Student Participation in Extra-Curricular Activities

### 10.0 HIV/AIDS

### 10.1 HIV/AIDS in Primary Schools

### 10.1.1 Cases of HIV/AIDS in Primary Schools

From results as reported by school heads, a total of 30,463 ( 14,629 males and 15,834 females) cases of HIV/ AIDS were reported in primary school pupils, with the central region having the highest number of cases ( 13,070 pupils), followed by the eastern ( 6,309 pupils). Reported cases in other regions were; northern (4,278 pupils), western ( 4,648 pupils), south western ( 2,098 pupils) while the north eastern region with the smallest number of 60 pupils.

A total of 2,188 HIV/ AIDS cases ( 1,049 males against 1,139 females) were registered for teachers while 963 cases ( 336 males and 627 females) were registered for the nonteaching staff in primary schools.

Table 38: Reported Cases of HIV/AIDS in Primary Schools by Region

|  | Pupils |  |  | Teachers |  |  | Non-Teaching staff |  |  |
| :--- | :---: | :---: | :---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Female | Total | Male | Female | Total | Male | Female | Total |
| Central | 6,201 | 6,869 | 13,070 | 236 | 335 | 571 | 169 | 356 | 525 |
| East | 3,022 | 3,287 | 6,309 | 312 | 325 | 637 | 69 | 99 | 168 |
| N. East | 28 | 32 | 60 | 3 | 6 | 9 | 1 | 2 | 3 |

### 10.1.2 Dissemination of HIV/AIDS Information in Primary Schools

Analysis on the methods of disseminating HIV/AIDS information to pupils showed that assemblies took the lead at a rating of $22.0 \%$ followed by guidance and counseling at $20.7 \%$ Other forms of disseminating HIV/ AIDS information were rated as follows; talking on compound ( $15.9 \%$ ), drama ( $14.8 \%$ ), peer to peer education ( $12.4 \%$ ) while debates attracted the least form of disseminating HIV/ AIDS with a rate of $14.2 \%$

Figure 49: Modes of Dissemination of HIV/AIDS Information to Pupils in Primary Schools

### 10.2 HIV/AIDS in Secondary Schools

### 10.2.1 Cases of HIV in Secondary Schools

A total of 3,120 cases of $\operatorname{HIV} / \operatorname{AIDS}$ (1,763 males against 1,357 females) were registered for secondary school students. However, unlike primary schools, the eastern region registered the highest number of cases in secondary schools with a total of 1,629 students, followed by the central region with 552 students. Other regions registered the following number of cases as reported by the school heads; western (468 students), south western (284 students), northern (187 students).

A total of 291 teachers (203 males and 88 females) were reported to be with HIV/ AIDS while 191 cases ( 98 males and 93 females) were registered for non teaching staff.

Table 39: Reported Cases of HIV in Secondary Schools by Region

|  | Students |  |  |  | Teachers |  |  | Non-Teaching staff |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Region | Male | Female | Total | Male | Female | Total | Male | Female | Total |
| Central | 252 | 300 | 552 | 38 | 17 | 55 | 24 | 18 | 42 |
| East | 1,032 | 597 | 1,629 | 102 | 48 | 150 | 36 | 49 | 85 |
| North | 85 | 102 | 187 | 21 | 7 | 28 | 10 | 7 | 17 |
| S. West | 149 | 135 | 284 | 22 | 7 | 29 | 7 | 7 | 14 |
| West | 245 | 223 | 468 | 20 | 9 | 29 | 21 | 12 | 33 |
| National | $\mathbf{1 , 7 6 3}$ | $\mathbf{1 , 3 5 7}$ | $\mathbf{3 , 1 2 0}$ | $\mathbf{2 0 3}$ | $\mathbf{8 8}$ | $\mathbf{2 9 1}$ | $\mathbf{9 8}$ | $\mathbf{9 3}$ | $\mathbf{1 9 1}$ |

### 10.2.2 Dissemination of HIV/AIDS Information in Secondary Schools

Unlike in the primary subsector, guidance and counseling took the lead in secondary schools as a mode of disseminating HIV/ AIDS information to students at arte of $22.6 \%$ This was followed by assemblies rating at $21.9 \%$ Other forms of disseminating HIV/AIDS information to students and the way they rated were; debates (17.1\%), Music, dance and drama (15.8\%), peer to peer education (13.6\%), while talking about HIV/ AIDS on compound rated lowest at 9.0\%

Figure 50: Modes of Disseminating HIV Information to Students in Secondary Schools

### 11.0 END OF CYCLE EXAMINATIONS BY UNEB

### 11.1 Primary Leaving Examinations (PLE)

Results from the National Examinations Body (UNEB) show that in 2009, a total of 498,760 candidates registered for the Primary Leaving Examinations (PLE), out of which 476,940 sat for the exams (a sitting proportion of $95.6 \%$ ) with the percentage share of candidates in government aided schools being 90.7\%
Table 40: PLE Results 2009

|  | All Schools |  |  | Gov't Schools |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Male | Female | Total | Male | Female | Total |
| Division 1 | 18,404 | 11,977 | $\mathbf{3 0 , 3 8 1}$ | 10,778 | 6,407 | $\mathbf{1 7 , 1 8 5}$ |
| Division 2 | 103,765 | 87,775 | $\mathbf{1 9 1 , 5 4 0}$ | 93,069 | 75,736 | $\mathbf{1 6 8 , 8 0 5}$ |
| Division 3 | 54,271 | 65,213 | $\mathbf{1 1 9 , 4 8 4}$ | 52,455 | 62,446 | $\mathbf{1 1 4 , 9 0 1}$ |
| Division 4 | 35,215 | 31,082 | $\mathbf{6 6 , 2 9 7}$ | 34,239 | 29,997 | $\mathbf{6 4 , 2 3 6}$ |
| Division U | 30,272 | 38,966 | $\mathbf{6 9 , 2 3 8}$ | 29,453 | 37,984 | $\mathbf{6 7 , 4 3 7}$ |
| Division X | 10,405 | 11,415 | $\mathbf{2 1 , 8 2 0}$ | 9,931 | 10,927 | $\mathbf{2 0 , 8 5 8}$ |
| Total Sitting | 241,927 | 235,013 | $\mathbf{4 7 6 , 9 4 0}$ | 219,994 | 212,570 | $\mathbf{4 3 2 , 5 6 4}$ |
| Total Registered | 252,332 | 246,428 | $\mathbf{4 9 8 , 7 6 0}$ | 229,925 | 223,497 | $\mathbf{4 5 3 , 4 2 2}$ |
| Pass rate | $87.5 \%$ | $83.4 \%$ | $\mathbf{8 5 . 5 \%}$ | $86.6 \%$ | $82.1 \%$ | $\mathbf{8 4 . 4 \%}$ |
| Performance Index | $54.6 \%$ | $50.3 \%$ | $\mathbf{5 2 . 5} \%$ | $52.4 \%$ | $48.0 \%$ | $\mathbf{5 0 . 2 \%}$ |

The pass rate in PLE was $85.5 \%$ in all schools and $84.4 \%$ in government aided schools. In this case candidates who are considered to have passed score a minimum of division 4. However, the performance index which rates performance in relation to grades (weighting grade scores) was $52.5 \%$ for all schools and $50.2 \%$ for government aided schools. Analysis shows that boys performed better than girls with a pass rate of $87.5 \%$ against $85.5 \%$ and performance rate of 54.6\% against 50.3\%

### 11.2 Uganda Certificate Examinations (UCE)

A total of 216,332 candidates registered for national examinations to complete $0^{\prime}$ level, out of which 212,496 candidates ( 112,847 males against 99,649 females) were able to sit for the final examinations (giving a sitting rate of $98.2 \%$ ).
Distribution of divisional scores at national level showed that out of the candidates that sat for the final examinations, $7.6 \%$ scored division one, $18.5 \%$ scored division $2,27.0 \%$ scored division $3,42.4 \%$ scored division 4 while $4.4 \%$ of the candidates failed. This gave a pass rate of $95.6 \%$ (that's the percentage of candidates who scored at least division 4).

Figure 51: Distribution of Divisional Scores in UCE at National Level

### 11.2.1 UCE Performance at Regional Level by Gender

Considering the pass rate (that's candidates attaining at least division 4), a national average of $95.6 \%$ was realised with males performing slightly better than females with $96.5 \%$ against $94.6 \%$ there was no much variation at regional level with the highest rate registered in the western region at $97.0 \%$ followed by the central region with $96.6 \%$ Rates in other regions were; north eastern (95.1\%), eastern (94.2\%), south western (94.6\%) and the nothern region with the lowest had a pass rate of $93.4 \%$ at district lavel, the rate varied between $86.1 \%$ (Koboko district) and 100.0\% (Moroto district).

A further indepth analysis on candidates' perfomance that involved weighting divisional scores showed that an overall perfomance rate of $45.7 \%$ was realized nationally (out of the ideal perfomance where all candidates are expected to score division one). A gender analysis on perfomance rate indicated that still males perfomed better than girls with a perfomance rate of $48.7 \%$ against $42.2 \%$ across regions, perfomance varied between $49.5 \%$ (for central region) and $40.4 \%$ (north eastern region). The perfomance index values for other regions were; western ( $47.0 \%$ ), south western ( $42.7 \%$ ), $41.3 \%$ (eastern), and 41.1\%(northern).

Table 41: Regional Pass Rate and Perfomance by Gender

|  | PASS RATE |  |  | PERFOMANCE INDEX |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| REGION | Male | Female | Total | Male | Female | Total |
| Central | $97.2 \%$ | $96.0 \%$ | $96.6 \%$ | $53.0 \%$ | $46.3 \%$ | $49.5 \%$ |
| East | $95.6 \%$ | $92.5 \%$ | $94.2 \%$ | $44.2 \%$ | $37.5 \%$ | $41.3 \%$ |
| N. East | $96.1 \%$ | $93.8 \%$ | $95.1 \%$ | $43.9 \%$ | $36.0 \%$ | $40.4 \%$ |
| North | $95.0 \%$ | $90.5 \%$ | $93.4 \%$ | $44.6 \%$ | $34.9 \%$ | $41.1 \%$ |
| S. West | $96.0 \%$ | $93.0 \%$ | $94.6 \%$ | $46.4 \%$ | $38.2 \%$ | $42.7 \%$ |
| West | $97.8 \%$ | $96.2 \%$ | $97.0 \%$ | $50.5 \%$ | $43.2 \%$ | $47.0 \%$ |
| National | $\mathbf{9 6 . 5 \%}$ | $\mathbf{9 4 . 6 \%}$ | $\mathbf{9 5 . 6 \%}$ | $\mathbf{4 8 . 7 \%}$ | $\mathbf{4 2 . 2 \%}$ | $\mathbf{4 5 . 7 \%}$ |

### 11.3 Uganda Advanced Certificate Examinations (UACE)

Results from UNEB showed that out of 98,131 candidates that registered for end of cycle examinations for A' level, 96,655 candidates ( 56,682 males against 39,973 females) were able to sit for the examinations (giving a sitting rate of $98.5 \%$ ). A percentage distribution of candidates by performance based on principal passes obtained showed that; $21.6 \%$ of the candidates obtained four principal passes, 20.6\% obtained three principal passes, 20.3\% obtained two principal passes while $23.6 \%$ obtained 1 principle pass (denoted as 4P, 3P, 2P and 1 P respectively as illustrated in figure 52 below). Over $12.6 \%$ of the candidates scored subsidiary passes while $1.4 \%$ failed (i.e. didn't score any subsidiary pass). This analysis indicated that over $62.5 \%$ of the candidates were deemed eligible to continue with tertiary education as recommended at national standards (that's a candidate having scored a minimum of two principal passes)
Figure 52: Distribution of Scores in UACE at National Level

### 11.3.1 Regional UACE performance

Considering the candidates considered fit for further studies at tertiary level, over 62.5\% of the candidates performed to the set national standards (i.e. candidates attaining at least two principal passes) with the percentage of male candidates being slightly higher than that of female candidates at $63.3 \%$ against $61.2 \%$ At regional level however, the north eastern region registered the highest percentage of candidates considered eligible for tertiary education with $69.8 \%$ followed by the south western region ( $66.9 \%$ ). Other regions registered; western ( $65.5 \%$, eastern ( $64.5 \%$ ), northern ( $63.1 \%$ ) and central with the lowest 60.7\%

Further Analysis on UACE performance was done by weighting principal passes obtained by candidates and an index of performance generated. A national performance index value of $53.1 \%$ was obtained with males performing slightly better than females with $53.8 \%$ against 52.1\% Performance rates didn't vary greatly across regions as they ranged between 57.1\% (north eastern) and $52.0 \%$ (central region). Performance rates for other regions were; south western and western had $55.5 \%$ eastern ( $54.1 \%$ ), while the northern region had a performance rate 53.0\%

Table 42: Regional Performance by Gender

|  | TERTIARY ELIGIBLE (\%) |  | PERFOMANCE INDEX |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| REGION | Male | Female | Total | Male | Female | Total |
| Central | $61.3 \%$ | $60.0 \%$ | $60.7 \%$ | $52.6 \%$ | $51.3 \%$ | $52.0 \%$ |
| East | $64.5 \%$ | $64.6 \%$ | $64.5 \%$ | $54.1 \%$ | $54.1 \%$ | $54.1 \%$ |
| N. East | $68.8 \%$ | $71.6 \%$ | $69.8 \%$ | $56.9 \%$ | $57.6 \%$ | $57.1 \%$ |
| North | $64.0 \%$ | $60.6 \%$ | $63.1 \%$ | $53.6 \%$ | $51.2 \%$ | $53.0 \%$ |
| S. West | $67.4 \%$ | $65.7 \%$ | $66.9 \%$ | $56.1 \%$ | $54.2 \%$ | $55.5 \%$ |
| West | $67.1 \%$ | $62.9 \%$ | $65.5 \%$ | $56.6 \%$ | $53.8 \%$ | $55.5 \%$ |
| National | $\mathbf{6 3 . 3} \%$ | $\mathbf{6 1 . 2} \%$ | $\mathbf{6 2 . 5} \%$ | $\mathbf{5 3 . 8} \%$ | $\mathbf{5 2 . 1 \%}$ | $\mathbf{5 3 . 1} \%$ |

2.2 EDUCATION

## Access indicators

## Accessibility Rate

## Adult Literacy

## Basic Education

## Basic Learning Needs

## Business, Vocational and Technical Education training (BTVET)

## Capitation Grants

Class

Coefficient of Efficiency

These measure a proportion of pupils attending school compared to school going aged children in the population. They include Gross Enrolment Ratio (GER), Net Enrolment Ratio (NER), Gross Intake Ratio (GIR), and Net Intake Ratio (NIR).

The proportion of the children who have got access to schooling to the total population of the official school admission age.

Persons above 18 years who can read and write meaningfully with understanding in any language
A whole range of educational activities that take place in different settings that aim at meeting basic learning needs as defined in the "World Declaration on Education for All" (J omtien, Thailand, 1990). It thus comprises both formal schooling (primary and sometimes lower secondary) as well as a wide variety of informal public and private educational activities offered to meet the defined basic learning needs of groups of people of all ages.

Comprise both essential learning tools (such as literacy, oral expression, numeracy, and problem solving), and basic learning content (such as the knowledge, skills, values, and attitudes) required by human beings to survive, to develop their full capacities, to live and work in dignity, to participate fully in development, to improve the quality of their lives, to make informed decisions, and to continue learning.

This is education at the level after primary and after senior 4. It includes all institutions that train in skills development courses like; carpentry, mechanics, molding, electronics, hair dressing among others.

These refer to estimated amounts of money required by a school or institution both government and private for its smooth running. It states the amount spent on each pupil or student. Child Friendly School: A school that has facilities that can cater for all categories of children. For example separate toilet facilities for boys and girls.

A stage of instruction in primary or secondary, that is, Primary one through Primary seven and Senior one through senior six.

A measure of the internal efficiency of an education system. It is a ratio of the ideal number of pupil-years required for a pupil cohort to complete a level or cycle of education (e.g. the primary level) to the estimated total number of pupilyears actually spent by the same pupil cohort. The reciprocal of the coefficient of efficiency is the input-output ratio. A coefficient of one indicates maximum internal efficiency.

A group of pupils/students who enter the first grade of a level of education in the same school year and subsequently

| Complementary Education | Any organized systematic and quality education and training programs outside the formal school system that is consciously aimed at meeting specific learning needs of children, youth and adults. The goal of Comprehensive Education is to provide quality education and related services to all who by choice or circumstance are outside the formal education system. |
| :---: | :---: |
| Completion Rate | Total number of pupils/students who successfully sat and passed end of cycle exams (primary, secondary or tertiary) regardless of age, expressed as a percentage of the population at the official primary/ secondary graduation age. |
| Compulsory Education | A situation where children and youths of school going age are legally obliged to attend school for a given number of years. In Uganda, the legal minimum age is 6 years. |
| Course | A planned series of learning experiences in a particular subject matter. |
| Crude Enrolment Ratio | The percentage of the total enrolment at all levels to the total population. It is obtained by total enrolment at all levels (crude enrolment) divided by the total population. Where, enrolment includes those attending primary, secondary and tertiary institutions. |
| Distribution of S\&T colleges in uni versities by area | The ratio of the different areas of Science and Technology colleges (Basic Sciences, Computer, Engineering, Medicine, Pharmacy, Dentistry, Nursing, Para Medicine, Agriculture, Veterinary Science, Others) in universities to the total number of Science and Technology colleges. |
| District Education Management Information System | Decentralization of Education Management Information System. This is the idea of extending of information management to various districts. Under this scheme, data is collected and managed at district levels. |
| Dropout Rate | The percentage of pupils enrolled in a given grade or cycle or level of education in a given school year who have left school either voluntarily or otherwise. |
| Early Childhood Development (ECD) | Programmes offering a structured and purposeful set of learning activities either in a formal institution (pre-school) or as part of a non-formal childcare programme. |
| Education System | The overall network of institutions and programmes through which education of all types and/ or all levels is provided to the population. |
| Educational Institution | Any institution whose sole or main purpose is the provision of education. Such institutions are normally accredited, or sanctioned, by some public authority. |
| Educational Level | The highest level of formal training attained by an individual. In Uganda there are four levels of formal education namely primary, secondary, higher and tertiary. |

| Educational Personnel | Broad term covering three categories. Teaching staff- are those persons who participate directly in structuring pupils. Other pedagogical and administrative personnel include headmasters, school administrators, supervisors, councilors, school and health personnel, librarians, curriculum developers as well as educational administrators at the local, regional and central levels. Support personnel include clerical personnel, building operation and maintenance staff, security personnel, transportation workers, catering staff e.t.c. |
| :---: | :---: |
| Educational Programme | A set of organized and purposeful learning experiences with a minimum duration of one school or academic year, usually offered in an educational institution. |
| Educational Survival Rate | The percentage of a pupil cohort that enters together in the first grade of primary education that reaches a given grade (e.g. Grade 5) or the final grade of an education cycle either with or without repeating a grade. |
| Efficiency indicators | These indicators measure the efficiency in the delivery of services of the sector. These indicators continue to outline the sector's efforts to enhance efficiency and effectiveness of the sector. They include; percentage of qualified teachers, completion rates both at primary and post primary levels, transition rates, survival rates among other |
| Enrolment Ratio | The proportion of the population in a specified age group attending primary school to the total population in that age group. |
| Enrolment | Those pupils who were admitted/re-admitted and fully recorded in the school's Register at the beginning of the first term. It includes all those pupils whose names appear on the school register (including repeaters and those temporarily absent). |
| Formal Education | The education attained in nurseries, primary, secondary schools and, tertiary institutions that follow a given approved curricula. |
| Full-time Teacher | A person engaged in teaching for a specified number of hours per week according to official regulations in the country. |
| Functional Literacy | A person functionally literate is one who can engage in all those activities in which literacy is required for effective function of his or her group and community and also for enabling him or her to continue to use reading, writing and calculation of one's personal or own community development. |
| Gender parity index | Is a socioeconomic index designed to measure the relative access to education of males and females. It is calculated as the quotient of the number of females by the number of males enrolled in a given level of education (primary, secondary, etc.) |
| Grade Specific Enrolment Ratio | The ratio of the enrolment in a specific class to the total enrolment at all levels. |
| Grade | A stage of instruction attained in one school year for a particular education level usually covered in one school year. For example Grade 5 (or P5) in primary level or Grade 3 (or S3) in secondary level. |

| Graduate | A student who successfully completes first tertiary education irrespective of whether one was full or part time provided <br> he/ she fulfilled the awarding requirements of that institution. |
| :--- | :--- |
| Gross Enrolment Ratio <br> (GER) | The total enrolment in a specific level of education (Pre-primary, Primary, Secondary and Tertiary), regardless of age, <br> expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a <br> given school-year: Pre- Primary- 3-5; Primary - 6 -12; Secondary-13-18; Tertiary - 19- 24 |
| Gross Intake Rate (GIR) |  | | The total enrolment of new entrants in the first level of an education cycle regardless of age expressed as the percentage |
| :--- |
| of the eligible official school entry age population corresponding to the same level of the given education cycle. Official |
| school entry ages for the subsectors are; pre-primary (3 years), primary (6 years), secondary (13 years), Tertiary (19 |
| years). |

## Primary Education

expressed as a percentage of the corresponding population
Total number of new entrants in the first grade of a given level of education (Pre-primary, Primary, Secondary and Tertiary), regardless of age, expressed as a Percentage of the population at the official school-entrance age.

A pupil/ student who joins an education system for the first time.
The number of Science and Technology colleges that provide studies in the following fields: engineering, natural sciences, mathematics and computers.

The number of Social Sciences and Humanities colleges that offer studies in the following fields: social and behavioral sciences, j ournalism and information, business and administration, and law.

Percentage of pupils who can use, numbers, make additions, subtraction, simple multiplication, simple division, simple weights and measures, money counting and telling time.

Children in the official school-age group who are not enrolled in school as adopted by the Ministry of Education and Sports.

A person whose working load and associated financial remuneration are less than that of a full-time teacher.
This includes non-teaching staff like headmasters (head teacher) and school administrators, supervisors, school health personnel and librarians working in education institutions

Enrolment in private educational institutions at a given level of education expressed as a percentage of total enrolment at the same level. 'Private' means educational institutions not operated by a public authority
an index that measures the quality of passing at all levels of Education.
School located in an area that somewhat mirrors the characteristics of an urban area but to a lesser extent. In this area, only some of the facilities found in urban areas exist; the population concentration is also moderate.

These are institutions that enroll primary seven leavers and senior 4 leavers. They include secondary institutions (sl-s6), Business, Vocational and Training Institution and Primary Teachers Collages.

Programmes at the initial stage of organized instruction, which are designed mainly to introduce groups of very young children, usually from age three or so, to a school-type environment, i.e. to provide a bridge between the home and the school . Such programmes are variously referred to as infant education, nursery education, pre-school education, or early childhood education.

Sometimes called elementary education, refers to educational programmes that are normally designed on a unit or proj ect basis to give pupils a sound basic education. The entry age for primary education usually varies between five and
seven years. In Uganda this level covers seven years of full-time schooling.

Special Needs
Education (SNE)

These are educational institutions controlled and managed by a private body or have a governing board most of whose members are not selected by a public agency or elected by public vote. Private educational institutions may be operated by a non-governmental organization or association, a religious body, a special interest group, a foundation, or a business enterprise, on either a profit or non-profit basis. Private educational institutions operate within generally acceptable regulations (they have to follow guidelines followed by public institutions).

The percentage of pupils advancing to the next grade in the following school year to the total number of pupils in an institution.

Are controlled, managed and operated by a public education authority or government agency or by a governing body (council, board, and committee) most of whose members are either appointed by a public authority or elected by public vote.

The government signs a memorandum of understanding to partner with private sector in the implementing of USE program. With the aim of increasing access to secondary school.

The number of pupils/ Students in the school divided by the total number of latrine stances in the school

Total number of pupils/ Students enrolled in a given school divided by the total number of teachers in the same school.

The number of pupils using a single textbook.

A non-monetary measure of educational inputs or resources. One pupil-year denotes the resources spent to maintain a pupil in school for one year.

A learner of school going age who is enrolled in an educational pre and primary programme.
Average number of primary school pupils per primary school classrooms.
Educational interventions and other support designed to address special learning needs. This term has come to replace the older term 'special education', which referred mainly to the education of children with disabilities, usually in special school or institutions. Moreover, the concept of 'children with special educational needs' now extends beyond those who have physical or other disabilities to cover also pupils who are failing in school for a wide variety of other reasons.

## Student

A student is a person of either sex, not classified as usually economically active, who attends any regular educational institution, public or private, for systematic instruction at any level of education.

Survival Rate by Grade Percentage of a cohort of pupils (or students) enrolled in the first grade of a given level or cycle of education in a given school-year who are expected to reach successive grades.

Teachers Persons who, in their professional capacity, guide and direct learners in gaining knowledge, attitudes and skills that are stipulated by a defined curriculum programme.

### 2.2 SPORTS

Coach An individual involved in the direction, instruction and training of the operations of a sports team or individual sportspeople.

Is a collection of supplies and equipment for use in giving first aid.

## Football Stadium

## Game

## Gym

## Gymnastics

## Leisure

## Locker Room

## Mind sports

Physical Education (PE)

## Physical Exercise

## Physical Fitness

Play

## Recreation or Fun

## Referee

## Sport

a stadium where football games are held
A structured activity, usually undertaken for enjoyment and sometimes used as an educational tool. Sports have been recreated with a game, including team sports, athletics and extreme sports.

Athletic facility equipped for sports or physical training
An activity and sport involving performance of exercises requiring physical strength, flexibility, agility, co-ordination, balance, and grace.

A form of entertainment or sleep, recreation is active for the participant but in a refreshing and diverting manner.
Where you can change clothes and which contains lockers for the temporary storage of your clothing and personal possessions

Game that require only mental skills such as card games and board games,
is a course taken during formal education to encourage psychomotor learning in a play or movement exploration setting. The term physical education is commonly used to denote they have participated in the subject area rather than studied it. PE provides students with knowledge, and the enthusiasm to maintain a healthy lifestyle into adulthood. Activities included are designed to promote physical fitness, to instill knowledge and understanding of rules, concepts, and strategies.

Any bodily activity that enhances or maintains physical fitness and overall health or wellness. These include strengthening muscles and the cardiovascular system, honing athletic skills, weight loss or maintenance and for enj oyment.

Comprises two related concepts: general fitness (a state of health and well-being) and specific fitness (a task-oriented definition based on the ability to perform specific aspects of sports or occupations). Physical fitness is generally achieved through exercise.

Range of voluntary, intrinsically motivated activities that are normally associated with pleasure and enjoyment. Play may consist of amusing, pretend or imaginary interpersonal and intrapersonal interactions among others

An expenditure of time in a manner designed for therapeutic refreshment of one's body or mind.
An official that has authority to make decisions about play in many sports. Officials in various sports are known by a variety of titles, including (referee, umpire, judge, linesman, commissaire, and timekeeper or touch judge.)

An organized, competitive, and skillful physical activity requiring commitment and fair play. It is governed by a set of rules or customs, physical capabilities and skills of the competitor when determining the outcome (winning or losing). The physical activity involves the movement of people, animals and/ or a variety of objects such as balls and machines.

| Sports Association | A sports club, athletics club or sports association is an eclectic institution oriented to multiple sports, which fields many <br> teams. |
| :--- | :--- |
| Sports Equipment | A general term for any object used for sport or exercise. |
| Sports Federation | A sport governing body / sports organization that has a regulatory or sanctioning function. Sport governing bodies come in <br> various forms, and have a variety of regulatory functions. |
| Sports inj uries | Inj uries that occur to athletes participating in sporting events. In many cases, these types of inj uries are due to overuse <br> of a part of the body when participating in a certain activity. |
| Sports Kit | A standard equipment and attire worn by players. |
| Sportsmanship | Conforming all the rules of game and acting in a fair manner towards the opponent |
| Sportsperson/Athlete | A sportsperson (gendered as sportsman or sportswoman), or athlete in American English, is a person who participates <br> regularly in a sport. Sportspeople or athletes can be professional or amateur. A superior athlete is one who has above <br> average physical skills (strength, agility, and endurance) and is thus more suited for physical competition. |
| Team Sport | Includes any sport which involves people working together towards a shared objective. Some team sports are practiced <br> between opposing teams, where the players interact directly and simultaneously between them to achieve an objective. |

FACT SHEET

## LEAGUE TABLE

A) PRIMARY LEAGUGE TABLE

League table showing key primary performance indicators of districts for net intake rate, completion rates and ple pass rates for 2009.
