## Introduction

The bulletin presents International Merchandise trade statistics (exports and imports flows) between Uganda and the rest of the world as compiled from Customs and Non-Customs data sources. **International merchandise trade** statistics record all goods which add to, or subtract from, the stock of material resources of a country by entering (as imports) or leaving (as exports) its economic territory. The data compiled from customs and commodity authorities is herein referred to as Formal exports and imports.

The compilation of International Merchandise Trade Statistics is based on the General Trade System and coded according to Harmonized Commodity Description and Coding System 2017 (HS2017) and the Standard International Trade Classification (SITC Rev4) commodity nomenclatures as prescribed in the International Merchandise Trade Statistics manual 2010 (IMTS2010).

In February 2022, total trade increased by 15.4 percent to US\$ 1,088.1 million from US\$ 943.2 million recorded in January 2022. Total exports increased by 15.3 percent to US\$ 289.8 million in February 2022 from US\$ 251.4 million recorded in January 2022. Total imports flows increased by 15.4 percent to US\$ 798.3 million in February 2022 from US\$ 691.8 million registered in January 2022.

Annually, trade flows in February 2022 decreased by 10.6 percent from US\$ 1,217.7 million recorded in February 2021. Imports decreased by 0.8 percent to US\$ 798.3 million in February 2022 compared to US\$ 804.6 million recorded in February 2021. Similarly, Exports decreased by 29.9 percent to US\$ 289.8 million in February 2022 in comparison to US\$ 413.1 million registered in February 2021. See figure 1 and table 1 below.

The trade deficit increased to US\$ 508.5 million in February 2022 compared to a deficit of

US\$ 440.4 million recorded in January 2022. See Table 1 below.
