

National Population and Housing Census 2014

Area Specific Profiles

Soroti District

April 2017

This report presents findings of National Population and Housing Census (NPHC) 2014 undertaken by the Uganda Bureau of Statistics (UBOS). Additional information about the Census may be obtained from the UBOS Head Office, Statistics House, Plot 9 Colville Street, P. O. Box 7186, Kampala, Uganda; Telephone: +256-414 706000 Fax: +256-414 237553; E-mail: ubos@ubos.org; Website: www.ubos.org

Uganda Bureau of Statistics 2017, The National Population and Housing Census 2014 – Area Specific Profile Series, Kampala, Uganda.

FOREWORD

Demographic and socio-economic data are useful for planning and evidence-based decision making in any country. Such data are collected through Population Censuses, Demographic and Socio-economic Surveys, Civil Registration Systems and other Administrative sources. In Uganda, however, the Population and Housing Census remains the main source of demographic data, especially at the sub-national level.

Population Census taking in Uganda dates back to 1911 and since then the country has undertaken five such Censuses. The most recent, the National Population and Housing Census 2014, was undertaken under the theme 'Counting for Planning and Improved Service Delivery'. The enumeration for the 2014 Census was conducted in August/September 2014. The Uganda Bureau of Statistics (UBOS) worked closely with different Government Ministries, Departments and Agencies (MDAs) as well as Local Governments (LGs) to undertake the census exercise.

The 2014 Census provides several statistics on different aspects of the population. These include the population size and distribution which is a key indicator used for resource allocation, measurement of the extent of service delivery, decision making and budgeting among others. Other information includes the characteristics of the population, those of the dwellings they live in and information on the Household based Agricultural activities.

On behalf of the Bureau, I would like to appreciate the Government of Uganda for providing the necessary resources and infrastructure for undertaking the National Population and Housing Census (NPHC) 2014. In addition, the Bureau would like to thank the Development Partners, particularly United Kingdom Aid (UKAid), the United Nations Fund for Population Activities (UNFPA) and the United Nations Children's Fund (UNICEF) for providing technical and financial support towards the Census. The Bureau would also like to thank the Media for creating awareness about the Census 2014 and, most importantly, the individual households who voluntarily provided the required information.

Together We Count

Ben Paul Mungyereza
EXECUTIVE DIRECTOR

PREFACE

The Uganda Bureau of Statistics Act No. 12 of 1998 provides for the Minister responsible for Planning to direct ‘that a Census be taken’ on any matter specified in the Act. This was the legal basis for conducting the National Population and Housing Census (NPHC) 2014. The long-term objective of the NPHC 2014 is to ensure availability of bench-mark demographic and socio-economic data for use in planning, evidence based decision making, policy formulation and programme evaluation.

In order to support the planning process, the results from the Census 2014 are being released in phases as and when they become available. The Provisional Results Report was released in November, 2014 followed by the Final Results which were released in March 2016 and the Sub-county Reports in June 2016. These reports collectively provided information on the characteristics of the population and households at the national, district and sub-county levels.

The **Constituency Profiles Series** presents the characteristics of the population and household as well as the housing conditions of the population in each parliamentary constituency of the district. For convenience, however, the profiles of all constituencies in one district have been published in one report. In each report, the Appendix has selected national level tables for reference.

Uganda Bureau of Statistics (UBOS) is in the process of producing several other reports including the National Analytical Results (Monograph Series), District-level Analytical Reports and the Census Atlas. These will present detailed findings covering more indicators on different thematic areas. In addition to the above reports, the Bureau will be providing electronic datasets to facilitate deeper analysis of the data.

The Bureau, appeals to Policy Makers, Researchers and Academicians to make extensive use of this information for policy analysis and evidence-based decision-making at different levels of service delivery. Together we can harness information resources from the Census to improve service delivery and create a better Uganda.

ABOUT THE INDICATORS

Household

A group of persons who usually eat and live together. A household may be comprised of one or more persons provided they share the same meal and sleep under the same roof. The persons may be related usually in a family setting or may not be related.

Household population

All those persons who were enumerated in households. It excludes population which was enumerated on the streets (floating population) or those who were living in Institutions such as correction centres, religious institutions and health facility in-patients.

Population size

Refers to the total population count in the country or any geographical location based on the census reference night. It includes all those persons who were enumerated in households and institutions.

Population by age groups or specific age

This is the total count of the household population by a given age, age- groups or special age-groups. It excludes the non-household population.

Education characteristics/indicators

The indicators refer to specific age groups. The official school going age is 6-12 years for primary education, 13-18 years for secondary education and 19-24 years for tertiary education. However, the analysis includes the age-group 6-15 years to take into consideration those who start primary level at more than 6 years.

For those who have never been to school, we consider the age group 15 years and above on the assumption that by age 15, there are minimal chances for one joining school for the first time.

Illiteracy

This is defined as lack of the ability to read and write with understanding in any language. Persons aged 10 years and above who could not read and write responded (Codes 2, 3 and 4) to Question P21 of the Household Questionnaire. The objective of using this indicator is to shed light on the areas that need improvements in the delivery of the services.

Ownership of a birth certificate

Ownership includes all those persons (adults or children) who either had a Short Birth Certificate or a Long Birth Certificate during census enumeration. The analysis is based on specific age categories.

Parental survival and Orphanhood

Parental survival and orphanhood are derived variables which are based on two questions (P10 and P11), whether or not the biological mother/father of the respondent was still alive at the time of the census. Orphans are persons below the age of 18 who have lost any or both of their parents.

Disability

The questions P14 to P17 on functional difficulty are used to determine whether the person has a disability or not. It includes all persons aged 2 years and above. An individual is considered to be disabled if he/she has any one of the 4 questions with at least some difficulty.

Multiple disabilities refer to all persons who reported more than one functional difficulty.

Marriage and Child Bearing

Marital Status refers to all those persons who are living together and consider themselves as married. It includes all forms of consensual union whether legal or non-legal, religious or cultural or non-consensual union.

Employment

Questions on employment were eligible for all household population aged 10 years and above. Currently the age category for the working population 16 -64 years. The analysis is based on specific age groups of children 10-15 years, (other countries define a child as anyone below the age of 16, hence the age group 10-15 years).

Construction materials of the dwelling

The information is derived from the question on “materials used for the roof, floor and wall. Permanent floor materials include concrete, cement screed, tiles, wood, while permanent roof materials include roof tiles, iron sheets, asbestos and concrete.

Status of dwelling

The permanency nature of construction materials determines the status of the dwelling. The idea is to be able to classify a dwelling unit as temporary or permanent.

Access to community services

The choice of indicators is for those households that are beyond the 5 km radius for access to services (access to public/private schools, health facilities and a police station/post). The nearness of the service to the household does not take into consideration whether the services are utilized by the household or not.

Other environmental conditions – waste disposal

Any household was considered to have proper waste disposal if at the time of the census it disposed off solid waste using registered or unregistered waste vendors as well as using skip bins provided by the Municipal authority.

Owner occupied dwellings

These are disaggregated by household headship. The percentages for male and female headed households may not add up to 100. For instance among the female headed households, what proportion are owner occupied? Among the male headed households, what proportion are owner occupied?

Source of energy for lighting – electricity

In the household questionnaire, Question H14 had about four forms of electricity used for lighting (grid, generator, solar, community/thermal plant). Any household that indicated using any of the four forms was considered to have access to electricity.

Household based agricultural activities

A household engaged in agriculture is one which is engaged in any of the following:

Growing of any crops, or rearing animals or involved in bee keeping or forestry/tree growing, and any fish farming. Agricultural activities outside the district were not considered.

INTRODUCTION

1.1 General Information about Uganda

Location and Size

Uganda is located in East Africa and lies across the equator, about 800 kilometres inland from the Indian Ocean. It lies between Latitude 1° 29' South and 4° 12' North of the Equator as well as Longitude 29° 34' East and 35° 0' East of Greenwich. The country is landlocked, bordered by Kenya in the East; South Sudan in the North; Democratic Republic of Congo in the West; Tanzania in the South; and Rwanda in South West. It has a total area of 241,551 square kilometres, of which the land area covers 200,523 square kilometres.

Administration

The country was divided into 116 districts (as at August/September 2014). The districts were further subdivided into 200 Counties, 1,378 Sub-counties and 6,495 Parishes. The role of these administrative units is to implement and monitor government programmes at the respective levels. Overtime, the administrative units have been sub-divided with the aim of easing administration and improving the delivery of services.

1.2 About the National Population and Housing Census 2014

The overall objective of the National Population and Housing Census (NPHC) 2014 was to provide data that are required for planning at all levels. The NPHC 2014 had three distinct phases namely, the Preparatory Phases, the Enumeration Phase and the Post Enumeration Phase.

The preparatory work for the Census 2014 started in 2008 with development of the overall strategy of undertaking the census. Other preparatory activities included development of the questionnaires, undertaking of the census mapping, conducting the Pilot Census, carrying out the census advocacy and publicity and other administrative support services.

The enumeration phase included recruitment and training of field staff, delivery of enumeration materials, conducting the main census enumeration and retrieval of materials. The census activities in the district were conducted under the overall responsibility of the Chief Administrative Officers (CAOs) or the Executive Director in the case of Kampala Capital City Authority (KCCA). All field staff underwent mandatory ten (10) day training on Census concepts and procedures.

The Census Reference Night was the night of 27th August 2014 and the enumeration was conducted on a de facto basis. The enumeration started on 28th August and continued to 7th September 2014. The Enumerators moved from household to household within the assigned

Enumeration Areas (EAs) and administered the Census questionnaire to the Head of household or any other assigned household member through face to face interviews.

The data processing was centrally managed at the Bureau offices. The filled questionnaires were captured with scanning technology and the information extracted using automatic character recognition.

Data quality assurance enhances credibility, usability and utility of data. The Post Enumeration Survey (PES) was used as one of the tools to evaluate the quality of the census data through testing the completeness of coverage and accuracy. The PES enumeration was undertaken in October/November 2014, and it covered 800 EAs distributed in all the districts and Kampala Capital City Authority (KCCA).

1.3 National Highlights of the 2014 Census Results

The results of the NPHC 2014 will be published in phases. The Provisional Census Results were disseminated in November 2014. These gave the number of households and the population by sex for administrative areas down to sub-county level. The first set of the final results of the Census 2014 were published in the Main Report which was released in March 2016. The report includes information on the population size and distribution as well as characteristics of the population and the dwellings they live in. The results showed that the total population of Uganda in 2014 was 34.6 million persons as shown in Table 1.

Between 2002 and 2014, the population increased from 24.2 million to 34.6million. This implied average growth rate of 3.0 percent per annum.

Table 1: Population size and Population Growth Rates, Uganda, 1969-2014

Census year	Male	Female	Total	Inter-censal Period	Average Annual Growth Rate (%)
1969	4,812,447	4,722,604	9,535,051		
1980	6,259,837	6,376,342	12,636,179	1969-1980	2.7
1991	8,185,747	8,485,558	16,671,705	1980-1991	2.5
2002	11,824,273	12,403,024	24,227,297	1991-2002	3.2
2014	17,060,832	17,573,818	34,634,650	2002-2014	3.0

The distribution of the population among the districts is given in Appendix Table 1. Wakiso district had a population of nearly two (2) million, accounting for about six percent of the total population, while some districts were less populous, Kalangala district being the smallest with a population of 53,406 persons. As of 2016, Uganda had a total of 259 urban centres with a

total urban population of 7.5 million persons. Thus, 20.2 percent of the total population lived in urban areas. Kampala Capital City was the most populous urban centre with 1.5 million persons.

Table 2 gives the distribution of the population by age. The Table shows that the population of Uganda is quite young, with the proportion of children (below 15 years of age) being 47.9 percent, while the 'Older persons' (aged 60 years and above) constituted only 2.9 percent.

Table 2: Population Distribution by Age, Sex, Residence, and Population Type, Uganda, 2014

Age	Sex		Residence		Population Type		Total
	Male	Female	Rural	Urban	Household	Institutional	
0-4	3,173,950	2,957,078	4,950,513	1,180,515	6,107,155	23,873	6,131,028
5-9	2,834,456	2,717,222	4,557,328	994,350	5,532,230	19,448	5,551,678

90-94	15,125	22,046	29,989	7,182	34,339	2,832	37,171
95 and above	18,212	26,256	37,186	7,282	41,231	3,237	44,468
Total	16,897,849	17,736,801	27,156,482	7,478,168	34,141,299	493,351	34,634,650

Characteristics of the Population

About 87 percent of the boys and girls of primary school going age (6-12 years) were attending school, while about 1 in every 10 children of primary school going age children had never been school. The Illiteracy status Rate was 72 percent among persons aged 10 years and above. Out of the 17.7 million persons of working age (aged 14 to 64 years), 13.8 million (78 percent) were working in the (Labour Force), with the most common occupation being subsistence farming (65%).

Vulnerability can be assessed at personal and household level. At personal level, vulnerability is a state of being in which a person is likely to be in a risky situation, suffering significant physical, emotional, or mental harm that may result in his/her human rights not being fulfilled (MoGLSD, 2004). The 2014 Census measured some of the dimensions of Child Vulnerability. The results show high levels of vulnerability as highlighted below;

- One in every eight (12.5%) of children aged 6 – 12 Years were not in school;
- Two out of every 25 (8%) children less than 18 years of age were orphaned;
- One in every 16 (6%) of the girls aged 12 to 17 years had already given birth;
- One in every 15 (6.5%) of the girls aged 12 – 17 had ever been in a marriage union;
- Seven out of every 10 Children (70%) aged less than five years did not have a Birth certificate.

There was a general improvement in the demographics of the population with the Total Fertility Rate falling to 5.8 children per woman while the infant Mortality Rate decreased to 53 deaths per 1,000 live births. The Life Expectancy at Birth also increased to 63.3 years

Characteristics of the Households

The household population consisted of (99 percent of the total population.) The Census 2014 enumerated a total of 7.3 million households with a population of 34.1 million .This gave an Average Household Size of 4.7.

The 'Tadooba' remained the most common source of lighting being used by 52 percent of the households. Only one in every five households (20%) had access to electricity. On the other hand, Wood fuel was the most common fuel used for cooking, with only six percent (one in every 16) of the households using other fuels. Sanitation remains a challenge with only thirty percent of the households with unimproved toilet facilities. About 600,000 households did not have any toilet facility at all.

The majority of the households (69 percent) derived their livelihood from subsistence farming. Only 27% of the households depended on earned income. One in every nine households (11%) were having only one meal per day (for adults). Some of the households (11%) received remittances from abroad in cash or in kind. More than two thirds of the households

(69%) had at least one member owning a Mobile phone. Ownership of a Mobile among persons aged 10 years and above was at 38 percent. The radio remains a dominant source of information and about 60 percent of the households owned a radio.

Housing Conditions

The housing sector recorded a general improvement. Overall, 67 percent of households in Uganda resided in detached dwellings. However, nearly half (47%) households resided in dwellings with only one room for sleeping. There was also significant improvement in the materials used for construction of the dwellings. About 44% of the households resided in dwellings constructed with permanent wall material. The equivalent shares for roof and floor were 70 and 34 percent respectively.

Agricultural Activities

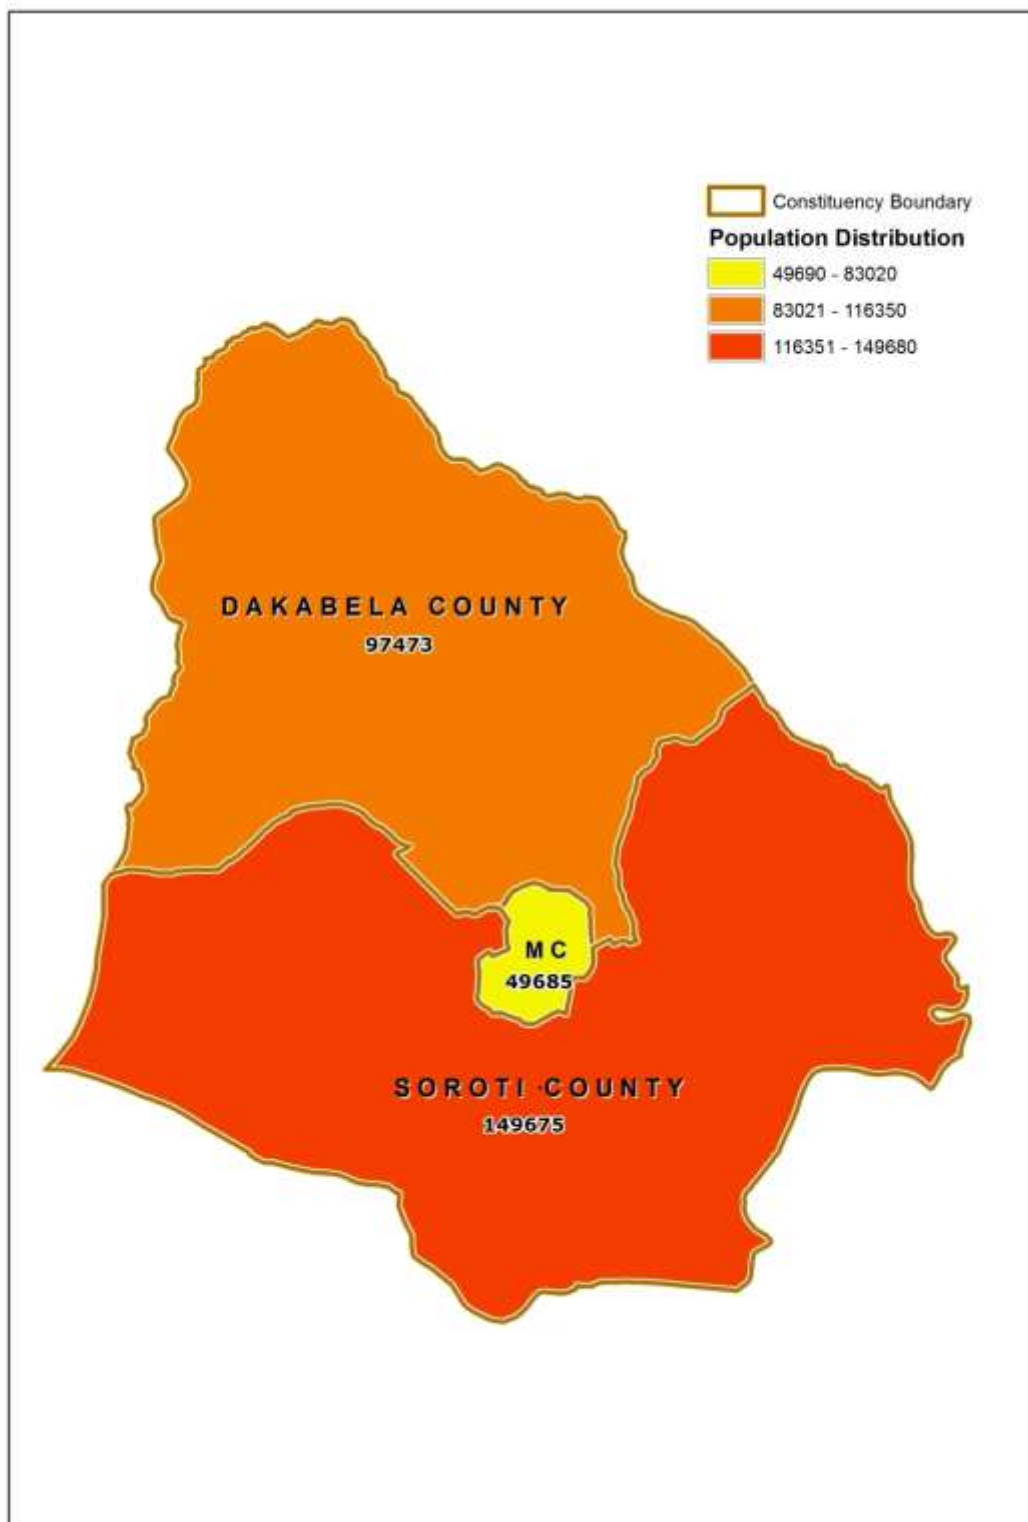

Agriculture has remained a dominant sector in the economy. The Census revealed that a total of 5.8 million households engage in agriculture. More than two thirds (69 percent) of households derived their livelihoods from subsistence farming as the main source of earning. In terms of employment, the majority of the working population (65 percent) were subsistence farmers.

Persons aged 10 years and above that own at least one mobile phone	58,868	30.8
Males aged 10 years and above that own at least one mobile phone	36,145	40.1
Females aged 10 years and above that own at least one mobile phone	22,723	22.5
9.2: Mobile phone ownership (18-30 years)	Number	Percent
Persons aged 18-30 years and above that own at least one mobile phone	28,497	43.8
Males aged 18-30 years and above that own at least one mobile phone	16,702	56.1
Females aged 18-30 years and above that own at least one mobile phone	11,795	33.4
9.3: Internet Usage (10 and above years)	Number	Percent
Persons aged 10 years and above that use internet	13,940	7.3
Males aged 10 years and above that use internet	9,220	10.2
Females aged 10 years and above that use internet	4,720	4.7
9.4: Internet Usage (18-30 years)	Number	Percent
Persons aged 18-30 years that use internet	8,178	12.6
Males aged 18-30 years that use internet	5,298	17.8
Females aged 18-30 years that use internet	2,880	8.2

10: HOUSING CONDITIONS

10.1: Construction Materials For the Dwelling Units	Number	Percent
Households living in dwelling units constructed using permanent roof materials	22,309	40.6
Households living in dwelling units constructed using permanent wall materials	19,027	34.6
Households living in dwelling units constructed using permanent floor materials	17,280	31.5
10.2: Status of Dwelling Units	Number	Percent
Households living in semi-permanent dwelling units	8,941	16.3
Households living in temporary dwelling units	30,451	55.4

11: ACCESS TO COMMUNITY SERVICES

11.1: Access to a Primary school	Number	Percent
Households that are 5 km or more to the nearest primary school, whether public or private	2,811	5.1
Households that are 5 km or more to the nearest public primary school	4,648	8.5
11.2: Access to a Secondary school	Number	Percent
Households that are 5 km or more to the nearest secondary school, whether public or private	23,498	42.8
Households that are 5 km or more to the nearest public secondary school	30,361	55.3
11.3: Access to a Health Facility	Number	Percent
Households that are 5 km or more to the nearest health facility, whether public or private	12,365	22.5
Households that are 5 km or more to the nearest public health facility	19,630	35.7
11.4: Access to a Police post /Police station	Number	Percent
Households that are 5 km or more to the nearest Police Post/Police Station	20,988	38.2

12: HOUSEHOLD HEALTH AND HYGIENE

12.1: Ownership of Mosquito nets	Number	Percent
Households that own at least a mosquito net	51,904	94.5
Households that own at least a mosquito net that was received free (Government /NGO)	47,702	91.9
12.2: Source Of Water For Drinking	Number	Percent
Households that have access to piped water	9,346	17.0
Households that use a bore hole	37,009	67.4
12.3: Ownership of a Toilet facility	Number	Percent
Households without any toilet facility	6,371	11.6
12.4: Other environmental conditions	Number	Percent
Households that <u>properly</u> dispose off solid waste	25,003	45.5
Households which are not living in decent dwellings	52,884	96.3

13: HOUSEHOLD ASSETS

13.1: Owner occupied Dwellings	Number	Percent
Households that are owner occupied	42,045	76.6
Male headed households that are owner occupied	32,743	78.6
Female headed households that are owner occupied	9,302	70.3
13.2: Movable Assets	Number	Percent
Households that own a television	4,693	8.5
Households that own a computer	1,673	3.0
Households that own a bicycle	24,708	45.0
Households that own a radio	26,583	48.4

14: OTHER HOUSEHOLD CHARACTERISTICS

14.1: Main source of information	Number	Percent
Households whose main source of information is a radio	9,143	55.4
Households whose main source of information is a community announcer	364	2.2
Households whose main source of information is a telephone	1,101	6.7
14.2: Household Economy and Welfare	Number	Percent
Households that received remittances from abroad in the last 12 months	4,004	24.3
Households where any member possesses a bank account	1,652	10.0
Households that depend on subsistence farming as a main source of livelihood	14,906	90.3
Households with at least one member engaged in a non-agricultural household based enterprise	8,766	92.0
Households where (all members aged 5 years and above) consume less than two meals in a day	1,098	6.7
14.3: Energy for lighting	Number	Percent
Households that have access to electricity	990	6.0
Households that use tadooba for lighting	8,812	53.4

15: HOUSEHOLD BASED AGRICULTURAL ACTIVITIES

15.1: Household Based Agricultural Activities	Number	Percent
Households engaged in crop growing	15,086	91.4
Households engaged in maize growing	4,969	30.1
Households engaged in coffee growing	0	0.0
Households engaged in growing of beans	6,335	38.4
Households engaged in growing of millet	4,463	27.0
Households engaged in growing of sweet potatoes	8,081	49.0
Households engaged in growing of matooke	1,184	7.2
Households engaged livestock farming	13,989	84.8
Households engaged in either crop growing or livestock farming	15,811	95.8

APPENDICES

Appendix 1: Population by Sex and Type of Residence by District, Uganda 2014

Central	Male	Female	Urban	Rural	Total

UGANDA BUREAU OF STATISTICS, P.O. Box 7186, Kampala, UGANDA. Tel: +256-414-706000. Fax: +256-414-237553. Email: ubos@ubos.org Website: www.ubos.org

Hello, my name is
.....
and I work with Uganda Bureau of Statistics (UBOS). We are conducting the National Population and Housing Census 2014. We are visiting each and every household in the country collecting information about individuals and the homesteads they live in. It takes about 40 minutes to complete the interview. Whatever information you provide will be kept strictly confidential. We would very much appreciate your participation and co-operation in this Census.

Result Code (R1)	Ethnicity (P8)	Country Of Citizenship For Non-Ugandans	Religion (P9)	Section 5: Crop Codes
