

Construction Sector Indices

January, 2018

HIGHLIGHTS

Annual Changes show that the average input prices at the Whole Construction Sector (*covering material prices, wage rates & equipment hire rates*) increased by 0.1% for the year ending January 2018 compared to the year ended January 2017. This is a reduced rate of increase compared to 1.2% observed in the year ended January 2017. Fig.1 shows the trend of indices across the twelve months period.

Fig 1: Trends of the Whole Construction Sector Index, January 2017 to January 2018

The main Contributors to the 0.1 Percentage increase include:

- An increase of 0.4% in prices of inputs for Residential buildings.
- An increase of 2.4% in prices of inputs for the Civil works sub sector.

Ben Paul Mungyereza
Executive Director,

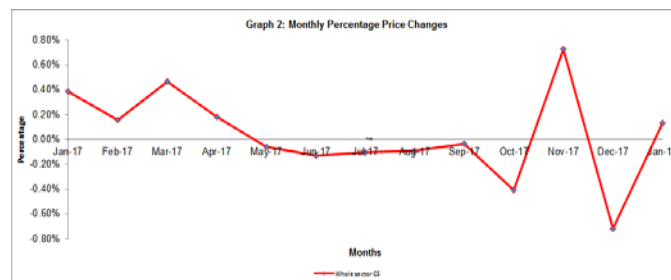

Wednesday, 14th March, 2018

- Notes: 1 This release contains composite input price indices for the construction sector and their “basic heading” components.
- 2 To obtain the percentage change in prices between any two periods, divide the index number in the second period by the index number in the first period, subtract 1 and multiply the result by 100.
- 3 Comments can be addressed to: Mr. Peter Opio, Director, Business & Industry Statistics, Uganda Bureau of Statistics on email peter.opio@ubos.org & phone no: 0414 706016 or 0782 319690 (Mob).
The next release will be in the third week of January, 2018

Monthly Changes show that in January 2018, prices of inputs into the Whole Construction Sector increased by 0.1% compared December 2017. However, there was a decrease of 0.7% in input prices for the month ended December 2017. The observed price increase in inputs in the month of January were influenced by increases in prices of inputs into the sub sectors as below:

- Buildings; Non Residential by 0.1% and
- Buildings; Residential by 0.1%.

Fig 2: Monthly Price Changes at the Whole Construction Sector Index, January 2017 to January 2018

Basic Headings (Monthly Changes)

Overall, the prices of Basic Headings items (material inputs, equipment hire and wage rates) increased in January 2018 compared to December 2017. Notable increases were registered in;

- Other steel and Iron by 1.7% after an insignificant drop in December 2017,
- Cement by 0.9% and Lime by 0.7% following an insignificant change in cement prices and drop of 0.1% in Lime prices in December 2017
- Diesel and Bitumen input prices also increased by 1.2% and 0.1% respectively.
- Roofing sheets by 0.3% following a previous increase of 2.7% in December 2017.

Explanatory Notes on the Statistical Release

The data presented in this Statistical Release are indices designed to show price changes in each period. On page 1 there is a short commentary highlighting the main changes observed.

The graphs on page 1 are derived from Table A “Construction Sector Price Indices” on page 2 of the statistical release. The first graph shows the price changes for the whole sector for each month for the one year. The second graph shows the monthly average price indices in each month for the whole sector and the major sub-sectors.

The charts on page 5 above show the indices for the latest five months for each basic heading. The Consumer Price Index (CPI, rescaled) and the quantity of cement for the domestic market are also shown. (Rescaling means multiplying or dividing the original series by a constant factor so as to compare with the current trends in say CPI)

If the bars in the charts are at almost the same level, then they indicate very little (if any) change in prices. An increase in the height of the bars indicates an increase in the prices while a reduction in the height implies a decline in prices.
